ENERGY FACILITY SITING BOARD

IN RE:	**INVENERGY THERMAL DEVELOPMENT LLC APPLICATION TO CONSTRUCT AND OPERATE THE CLEAR RIVER ENERGY CENTER, BURRILLVILLE, RHODE ISLAND**	:	**SB-2015-06**

SHOW CAUSE ORDER

On October 29, 2015, Invenergy Thermal Development LLC (Invenergy) filed an application with the Energy Facility Siting Board (Board) to construct and operate a combined-cycle natural gas-fired electric generating facility in the Town of Burrillville, Rhode Island. As part of its application, Invenergy identified Pascoag Utility District (Pascoag) Well 3A as its major water source to be used for cooling water. On August 22, 2016, Invenergy notified the Board that the Pascoag Board of Commissioners had voted to terminate the Letter of Intent entered into between Invenergy and Pascoag which would have allowed Invenergy to use Pascoag Well 3A as a water source. In that letter, Invenergy advised that it would file supplemental and amended information to its application regarding water supply. To date, Invenergy has failed to provide updated information to the Board. The lack of information regarding Invenergy's water supply renders its application incomplete and therefore not in compliance with Rule 1.6(b)(4) of the Rules of Practice and Procedure.

Accordingly, it is hereby

(98) ORDERED:

Invenergy shall appear before the Board on October 13, 2016 at 12:00 pm to show cause why the licensing proceedings should not be suspended.

EFFECTIVE AT WARWICK, RHODE ISLAND, OCTOBER 3, 2016. WRITTEN ORDER ISSUED OCTOBER 4, 2016.
