Fax (401) 568-9473

TDD (401) 568-1710

Honorable Members of the Town Council
and Town Manager

As required by the Town Charter and State Law, the comprehensive annual financial report for fiscal year ending June 30, 2008 is hereby submitted. The ultimate responsibility for both the accuracy and fairness of the presented data rests with the Town of Burrillville's Finance Department. To the best of our knowledge and belief, the information enclosed is accurate in all material respects and the data is presented in a manner designed to fairly represent the financial position and the financial operation of the Town during the fiscal year ended June 30, 2008. The Town and its auditors, Cayer Caccia, LLP cooperated to prepare this information, which will enable you to obtain a better understanding of the Town's financial position and the costs associated with providing services. Various disclosures have been included to assist you in gaining an understanding of the Town's financial activities.

The comprehensive annual financial report consists of four sections: 1) Introductory, 2) Financial, 3) Single Audit, and 4) Statistical. The Introductory section contains this transmittal letter, the Town's organizational chart, and a listing of principal officials. The Financial section contains the independent auditor's report on the basic financial statements and schedules. The Financial section also includes the Management's Discussion and Analysis [MD&A] which provides a narrative overview and analysis of significant financial issues and activities affecting the Town's financial position. The Single Audit section is prepared in compliance with the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, which rescinded Circular A-128 as it related to the Audits of State and Local Governments. Single Audit now applies only in years that the Town expends \$500,000 or more in federal funds. Included in the Single Audit section is the schedule of expenditures of federal awards, grant activity findings and recommendations, and the independent auditor's report on the internal controls and compliance with applicable laws and regulations. The Statistical section contains essential financial and demographic information relative to the Town.

Copies of this report are on file in the Town Clerk's office and the public libraries. This report is forwarded to the Rhode Island Auditor General's Office, as required by State Law, and to various other state agencies, financial institutions, and rating agencies.

Profile of the Government

The Town of Burrillville is a Rhode Island municipal corporation, which provides a full range of services including general government administration, public safety, public works, social services, recreation, and educational opportunities to its residents. In addition, the Town operates a wastewater collection and treatment facility.

There are several other governmental entities having operations within the Town limits, which are separate, legal entities. The responsibility for the financial reporting of those entities does not rest with the Town government. These boards represent entities established in conformance with state laws and are not governed by the Town Charter. Some of the services provided by these entities include elderly housing, electricity, emergency medical services, fire protection, library services, street lighting, and water.

COMMUNITY DESCRIPTION

The Town of Burrillville is a mixed suburban and rural community located in the northwest corner of Rhode Island. Burrillville was established in 1730. This year represents Burrillville's 201st anniversary since becoming incorporated on October 29, 1806. Since January 1, 1989, the Town has operated under a home rule charter, which was adopted at the November 8, 1988 general election after receiving legislative approval authorizing a referendum to seek voter acceptance of a home rule charter. The Charter was amended November 6, 1990, November 5, 1996, and November 9, 2004. The Town Council appoints the Town Manager and all boards and commission members. The seven member Council is elected at large at the regular biennial elections for staggered four-year terms.

Burrillville has an area of approximately 57 square miles (55.8 land; 1.5 water). The Town has 6 primary villages - Pascoag, Harrisville, Mapleville, Nasonville, Oakland, and Glendale. The Town's geography includes farmlands, several bodies of water, open space, woodlands, and wetlands.

FACTORS AFFECTING FINANCIAL CONDITION

Burrillville experienced significant population growth and residential real estate development during the late 1980s/early 1990's and again in the early 2000's. The majority of the Town's employers are State and local government agencies, service facilities and manufacturing facilities. Likewise, the Town's primary taxpayers are also involved with service, utility industries, and manufacturing.

The recently compiled 2000 census indicates that Burrillville has a population of 15,796 (a 434 [or 2.7%] decrease in population from the 1990 census). Even though the census indicates a drop in population, the number of new housing units continued to grow by an average of 52 units per year over the past 10 years. The 1990 census data indicated that Burrillville had a permanent population of 16,230, which represented a 23.3% increase of population from the 1980 census count of 13,164. Over the past two (2) decades, Burrillville has been one of the fastest growing communities in Rhode Island. This rate of growth presents the Town with many significant challenges and opportunities relative to the increased demands for educational and municipal services. Most Town residents commute to jobs in the northern RI and Providence area. The Town's labor force has increased from 8,449 to 10,770 since 1998. Employment opportunities within the Town are approximately 3,000.

As required by law, the Town completed its latest three [3] year statistical revaluation which was effective December 31, 2006. This revaluation data was applied against the fiscal year ending 2008 tax levy. The last full revaluation affected property values assessed as of December 31, 2003. The Town completed its first State law required, three (3) year statistical revaluation in 2001. Effective for the assessment period of December 31, 1998, the Town received legislative authorization and has implemented a program whereby new construction after that date will be assessed on a pro-rata basis. The next statistical revaluation is currently ongoing and will be implemented effective December 31, 2009.

Net assessed values have increased by \$253,502,290 (18.5%) over last year's valuations. Approximately 84% of the Town's tax base is residential. There have been approximately 485 new housing units constructed over the past ten years.

A profile of the Town is summarized below to illustrate various changes in population, housing, economic trends, and conditions that would impact on the demand for services and facilities and the Town's ability to meet those needs. These indicators highlight the significant change that has taken place in Burrillville over the last ten years.

FACTORS AFFECTING FINANCIAL CONDITION (Continued)

<u>Category</u>	<u>1998</u>	<u>2008</u>	<u>% Change</u>
Population (est.)	16,102	15,796	(1.55%)
Labor Force	8,449	10,770	27.47%
Employed	8,082	10,185	26.02%
Unemployment Rate	4.60%	5.43%	(19.57%)
Median Age	32.9	37.5	13.98%
Per Capita Income	\$ 13,282	\$ 21,096	58.83%
Median Household Income	\$ 37,156	\$ 52,587	41.53%
School Enrollment	2,960	2,554	(13.72%)
High School Graduates	70.60%	85.18%	20.65%
Bachelor Degrees	15.90%	16.20%	1.89%
Net Assessed Values	\$ 655,089,518	\$ 1,622,903,045	147.74%
Median Selling Price (Single Family)	\$ 114,500	\$ 266,000	132.31%

Burrillville has three industrial parks. The Burrillville Industrial Park covers 53 acres, is the 23rd largest industrial park in the state, and is at capacity. A second 24-acre site (Clear River Drive Industrial Park) was acquired by the Industrial Foundation in FYE 1999. This site currently has four tenants and the remaining three lots are being marketed. In November 2002, the Burrillville Redevelopment Agency acquired a third industrial site, Burrillville Commerce Park – a 254 acre parcel located on Route 102. The Commerce Park currently has two tenants. The balance of the park is being marketed and engineered to determine the best use. The Town is also conducting a comprehensive analysis (Route 102 Master Plan) to determine the best method of developing Route 102, which is the primary transportation route that goes through the Town. Other activities include the renovation of the former Stillwater Mill site, which is the location of the recently completed library. A key component of the revitalization of this area includes the Burrillville Redevelopment Agency's sale of the former Clocktower building to Woonsocket Neighborhood Development Corporation [WNDC] for renovations.

In the interest of attracting industry to the Town, an act (Chapter 57, 1988) authorizing the Town to exempt from taxation or freeze the value of wholesale inventory was passed on July 26, 1988. In 1993, the Town received authorization to exempt retail inventory from local property taxes (Chapter 343, 1993). This authorization culminated in an ordinance being passed on May 28, 1997. When appropriate, the Town has granted tax stabilization to businesses interested in expanding and/or moving into Town, which results in additional jobs and tax base in Burrillville.

Regarding the available transportation network, Burrillville is located approximately 20 miles north of Providence, 22 miles south of Worcester, and 45 miles south of Boston. The Town is located 4 miles from Route 146, 8 miles from Route 295, and 18 miles from Routes 95 and 495. The Town is approximately 9 miles from North Central Airport located in Lincoln and 20 miles from T.F. Green Airport, the State's major airport, located to the south of Burrillville in Warwick, RI.

The Council adopted a revised Comprehensive Plan, which has been approved by the State and is good until March 2010. Incorporated within the plan is an economic development section. The new plan establishes goals, objectives, and implementation actions that will govern the Town's future growth and impact on the quality of life for many years to come. Additionally, the Town has adopted an Affordable Housing Strategy that is used as a State model.

ACCOUNTING SYSTEM AND BUDGET CONTROL

The accounting policies of the Town conform to generally accepted accounting principles applicable to governmental units. The modified accrual method is used for all Town funds except for Proprietary Fund Types, which are accounted for under the accrual method. Under the modified accrual method, revenues are recognized when they become both measurable and available to finance current operations. Property taxes are recognized in the fiscal year for which the taxes are levied and due provided that they are collected within the year or within sixty days of year end. Uncollected taxes are recorded as assets and credited to liability reserves in the same amount.

In developing, evaluating, and modifying the Town's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding:

- (1) The safeguarding of assets against loss from unauthorized use or disposition; and
- (2) The reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that:

- (1) The cost of a control should not exceed the benefits likely to be derived; and
- (2) The evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the general government's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. Internal controls are under constant review and improvements are adopted when recognized.

Because the Town is a recipient of federal and state funding, it is responsible for maintaining adequate internal controls that will assure compliance with any applicable regulations or laws associated with those programs. Our internal controls are subject to periodic evaluation by management as well as the Town's independent auditors.

As part of the Town's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the government has complied with applicable laws and regulations.

The annual budget for the Town General Government was adopted on June 11, 2008 by the Town Council in conformance with Article 10 of the Burrillville Home Rule Charter. During the year there were thirteen (13) supplemental budget appropriations adopted by the Town Council, which totaled \$5,951,517 - of which \$2,068,572 related to capital improvements carried forward from the prior year and \$3,745,945 represents other capital related projects funded during the year.

The adopted budget provided for municipal operations, school operations, debt service, and capital improvements. Control of the budget is achieved in several ways. The ultimate objective of these controls is to assure compliance with the approved budget, Town Charter, and RI General Laws. The level of budgetary control starts with the general classification and appropriation of funds. Contingency funds that are available at year-end are utilized to cover any shortfalls that may have occurred within a given department. The Town's fiscal position is reported monthly by the Finance Department to the Town Council, Town Manager, and Town Departments. The monthly report compares actual revenues, expenditures, and encumbrances against budgeted revenues and expenditures within the limitations of the current computer system. Additionally, the Town's fiscal position is reported to the RI Department of Administration on a quarterly basis. Budgetary control is maintained through a purchase order system, which seeks to insure that funds are available prior to an obligation being created. This reduces the possibility of liabilities being incurred, which are greater than the balance in the appropriation.

ACCOUNTING SYSTEM AND BUDGET CONTROL (Continued)

Encumbrance accounting is an important tool utilized by the Town for budget control. The institution of encumbrance accounting offers an additional level of protection to the task of accomplishing budgetary control.

The Town is continuing the refinement of its computer system which will, among other things, significantly improve the automation of our financial reporting as it relates to accounting, budgeting, tax assessment, tax collections, and departmental revenues. All side funds have been automated and installed on the system. All unencumbered appropriations lapse at year-end. All receipts are processed through the collector's office. The statements and schedules provided in the financial section of this report illustrate the Town's ability to continue to meet its responsibility for providing sound financial management.

Specific capital projects are developed with financial plans designed to cover the length of the project. A five-year capital improvement plan is updated annually. The Town Council adopted the annual five-year capital improvement plan for fiscal year ending June 30, 2008 on March 26, 2007.

This process was modified in fiscal year ending June 30, 1998 following the adoption of a revised capital improvement ordinance (2-4.5 Capital Projects Program) approved by the Council on January 14, 1998. The ordinance change provides for the plan to be initially reviewed by the Budget Board and subsequently approved by the Council by the middle of April. In addition, the ordinance establishes a minimum amount of \$900,000 for municipal and school capital improvement projects along with a variable amount that is appropriated to a reserve for major capital projects. The final appropriation for capital improvement projects occurs when the total annual budget appropriation is adopted in June each year.

CASH MANAGEMENT

The Town General Fund held \$8,135,036 in cash and cash equivalents on June 30, 2008. This cash balance allowed the Town to meet its routine expenses on a timely basis as well as its significant financial obligations that included liabilities associated with either the close of the old fiscal year (i.e. School and Town accounts payable and accrued compensation paid in July/August), or the payment of obligations that came due at the beginning of the new fiscal year (i.e. debt service) before the tax bills are mailed out and property tax revenues start to arrive.

Failure to maintain adequate reserve funds could require the Town to issue tax anticipation notes (and to include the applicable interest cost in its annual budget) so that operating and debt expenditures can be paid in a timely manner. The cash needs of the Town can fluctuate significantly in a short period of time. Of particular concern is the fact that if the budget process and/or the mailing of tax bills are delayed the Town may be put into a borrowing situation to meet its outstanding obligations on a timely manner. Assuming there were no prior year obligations, the investments outstanding as of June 30, 2008 would only cover approximately 17.3% (less than three (3) months) of the annual budget allocation. When the prior contractual obligations noted above are factored in, outstanding investments are only sufficient to cover one month's activity during the current year.

Another fact that cannot be over emphasized is that only a portion of our Fund Balance is actually cash. As the designated portions of the general fund are drawn down when needed, there will be even less liquid funds available for utilization during periods of time when the inflow of tax revenues and other receipts are low. The use of temporary borrowing to meet current expenditure needs is viewed as a negative factor by credit rating agencies. Timeliness is critical in the adoption of the budget. The Town does not want to be in a situation whereby if the budget adoption is delayed for any reason and/or the bills are mailed late, the Town could be required to meet expenses through short-term borrowing.

CASH MANAGEMENT (Continued)

Any monies that are available during the year are invested in various instruments such as banker's acceptances, certificates of deposit, prime commercial paper, repurchase agreements, and short-term money market certificates with maturities ranging from 1 to 60 days depending upon their anticipated cash requirements during that period. A sweep account has been created and is used when feasible. This account allows for overnight interest earnings on idle monies that had previously been in non-interest bearing accounts. These investments are in conformance with the guidelines established by the investment policy, which was formally adopted by the Town Council in February 1991, and as amended.

Investment income for the General Fund for FYE 2008 was \$ 261,858. This income category was \$125,888 less than last year [\$387,746]. This variance was due to a decline in interest rates. Interest income is also generated for other funds under the care and custody of the Town finance department.

FUND BALANCE

As in the past, Town staff continues to recommend and maintain an Unreserved, Undesignated Fund Balance at a level equivalent to the higher of 12% of current budget appropriations or an amount equal to the Town's budgeted annual debt payment (\$6,333,111 or 13.5% of the FYE June 30, 2009 budget). Note that the annual debt service payments for the last ten (10) years have moderately exceeded 12% of current budget appropriations. There was a \$6 million wastewater treatment bond authorization approved in November 2002 for the construction of sewerlines in the Glendale/Nasonville areas of Town. This project began in the fall of 2005 and is still going on. A Rhode Island Clean Water [RICW] Bond was acquired in October 2003 in the amount of \$5.6 million to fund the continuation of this project. In June 2006, a RIHEBC Bond in the amount of \$7.5 million was sold to finance the renovation and construction of the Callahan Elementary School. The school was completed during fiscal year 2008. During fiscal year 2007, two new bond authorities were sold. In October 2006 a \$5 million library bond (authorization approved in November 2004), a \$400,000 wastewater treatment bond, and \$2 million refunding bond was issued. In December 2006, a RICW bond in the amount of \$3.5 million was also closed. The library project was completed and the wastewater construction project in the eastern part of Town continued during fiscal year 2008.

Based upon the results of the audit for FYE June 30, 2008, the Town's Unreserved, Undesignated Fund Balance is approximately 11% of the 2009 budget, which is less than the Town's Fund Balance policy by \$511,886. It is anticipated that this variance will be corrected in fiscal year 2009. In the past, available funding has been used for a number of outstanding issues including unanticipated infrastructure demands (such as bridge/culvert replacements) or continued funding of the reserve funds (debt reduction, recreation/open space land acquisition, unfunded liabilities [vacation/sick leave], or major capital).

Maintaining the policy relative to a minimum level of fund balance is essential for several reasons including the following:

- The Town must continually strengthen its overall financial condition to maintain its improved credit rating - particularly during poor economic times. Our credit rating determines the interest rate that we must pay on borrowed money. When a town's credit rating declines, the interest to be paid by the taxpayer on any new debt would increase.
- The utilization of the unreserved, undesignated fund balance is a one-time benefit to the community that is typically impractical to replace in the following year.

FUND BALANCE (Continued)

- The unreserved fund balance provides a financial resource, which, if depleted, will force the Town to incur the additional costs associated with short term borrowing in order to meet routine cash flow needs. Once the financial resources allocated towards our designated fund balance are eliminated, the Town will be in the position of having to borrow to meet financial obligations at the beginning of each fiscal year.
- Our unreserved, undesignated fund balance provides a margin of security when revenue sources are unreliable or when unforeseen situations occur (i.e. the State withholds funding previously promised). Our Fund Balance provides a level of protection should an unanticipated loss of revenue occur such as the State withholding promised financial aid during the year or in the event that Ocean State Power should be placed in the position where it is not commercially operating.
- A reduction of unreserved fund balance directly affects the amount of funds that can be invested which results in a loss of income earnings and a higher tax rate.
- The current unreserved fund balance level helps to lessen the impact of implementing General Accounting Standards Board Statement Number 11 and 34.
 - GASB 11 will require incorporation of such items as post retirement benefits into the Town's annual operating results. Currently the cost of these benefits are projected to be approximately \$1,201,668 (\$168,792 to the Town and \$1,032,876 to the School Department). The Town has set up and appropriated monies for deposit in a fund designed to address the issue of unfunded vacation and sick leave benefits. This fund had a balance as of June 30, 2008 of \$125,644, which represents 74.4% of the Town's total liability (\$168,792 which consists solely of accrued vacation benefits). Note that the Town is no longer liable for any post employment accrued sick time obligation because that obligation was paid off in 2006. The School Department has not initiated a funding mechanism to meet their liability.
 - A key component of GASB 34 involves the inclusion of capital assets, including infrastructure, into the annual operating statements.
- Another important interim use of general fund monies is for the purpose of either out-right funding or temporarily funding various capital projects in lieu of borrowing thereby avoiding the numerous costs (interest, legal, etc.) associated with temporary borrowing. Some of the past activities have included the police station renovation project, White Mill Park and Spring Lake Beach improvements, school renovation projects (Steere Farm Elementary and High School), library construction, and the cancellation of remaining sewer bond authorities. Significant savings have been achieved on these endeavors because the Town did not need to borrow on an interim basis.
- A stable unreserved fund balance assists us when the timing of our cash flow is not predictable thereby providing us with sufficient resources to meet the Town's various daily demands throughout the fiscal year.

MAJOR INITIATIVES

Major initiatives during the fiscal year included the following:

- The Town of Burrillville has been recognized by RI Monthly, a statewide magazine, as the second healthiest and safest place to live in the entire state of Rhode Island. The northwest corner of the state had the top three communities – Burrillville, Glocester, and Foster.
- The \$5.0 million construction of the new town library was completed by E.W. Burman and opened on April 1, 2008. This project is being funded by a general obligation bond and will receive substantial state aid to assist in the debt payments.
- A \$3 million expansion and rehabilitation of the June Rockwell Levy Rink was started in April 2007 and was completed on budget and as scheduled [substantially completed on September 15, 2007] so that the rink could open its season on time. A.F. Lusi was the general contractor for this project. This project was funded with the assistance of debt reduction funds and fund balance which will be restored through future state aid reimbursements.
- A Community Development Block Grant (CDBG) was awarded to the Town in the amount of \$64,500 in July 2008. The grant was to \$60,000 for Maplehill Road construction, \$1,500 for Community Housing Land Trust, and Program Administration \$3,000).
- In terms of economic development, the Burrillville Redevelopment Agency became a permanent agency of the Town by a Charter change that occurred in fiscal year 2005. The Town has continued working on a number of initiatives, including:
 - The Downtown Pascoag Association and Redevelopment Agency continued to work on improvements including the rehabilitation of the former Laundromat building which was completed and sold to the Burrillville Redevelopment Agency in September 2007. The building was marketed and subsequently sold to a private party in July 2008.
 - Development of the Clear River Drive Industrial Park continued with the assistance of the Industrial Foundation and private developers.
 - Continued activity related to the redevelopment of the Stillwater Mill Redevelopment which is a three phased project that is well underway. It started with the construction of the Stillwater Heights Senior Apartment complex [2006], continued with the recently opened library construction project, and will be completed with the renovation of the Clock Tower. Two key components in this project included:
 - The acquisition of the Fontaine/O'Hara property located on the east end of the Stillwater Mill complex for recently constructed library and possibly other municipal purposes was completed in fiscal year 2007.
 - The Town acquired the former Clocktower building and transferred ownership over to the Burrillville Redevelopment Agency. The Agency in turn sold the property to the NeighborWorks of Blackstone River Valley on June 2008 for the purpose of continuing the redevelopment of this site by creating a 47 unit residential development.

MAJOR INITIATIVES (Continued)

- Parks & Recreation, in addition to its normal duties and with the assistance of DPW when required, was busy in a number of areas:
 - Obtained grants for a variety of recreational activities including a DEM Open Space grant [\$20,700] was awarded for improvements at Shippee bridge, which is being restored by the State.
 - Construction of a new football field at the high school was completed.
 - A new dock was installed at Spring Lake Beach.
 - Overseeing the continued expansion of the after school program (Burrillville Extended Care) which operates at three sites. The BEC was formally placed under the Parks and Recreation Department by ordinance in January 2006. This year marks the 11th year of operations for BEC. Some projects funded through the BEC Program included playground equipment installed at Spring Lake Beach and kitchen renovations at Steere Farm Elementary School.
 - Successfully coordinated the Town's eighth annual Snakes Alive Road Race in Pascoag.
 - The Town has awarded a contract (9/25/02 - #02-252) in the amount of \$1,057,000 to Site Tech for the expansion and improvement of athletic fields at Hauser and Branch River. The project was substantially completed in the prior year. The final aspect of the project, installation of playground equipment at Hauser Memorial Field, was completed in this fiscal year.
 - Awarded a grant (\$150,000) for the engineering and design of a pedestrian path/bikeway (Rail Trail) to connect the villages of Harrisville and Pascoag.
- The Public Works Department along with its normal duties:
 - Handled approximately 18 storms and 51.5 inches of snow.
 - Installed a well and irrigation system at the Commerce Park.
 - Initiated engineering associated with the capping of the former Whipple Avenue landfill and Mill Pond Dam.
 - Completed engineering associated with the reconstruction of Route 107 and East Avenue by the State. Initiated engineering for the Shippee and Round Top Bridges to accelerate their repairs by the State.

MAJOR INITIATIVES (Continued)

- Continued implementation of the Infrastructure Program, which is designed to upgrade and expand the Town's program of sidewalk construction and road paving.
 - Angell Road, Douglas Turnpike, East Wallum Lake Road, and Tinkham Road were paved. In some cases work on sidewalks, culverts and drainage were also completed as needed.
 - High School Football Field construction was completed.
 - Gazza Road bridge construction was completed.
 - The street sign replacement program continued.
- Continued to sponsor the State DPW Annual Indoor and Outdoor equipment shows.
- Assisted the Recreation Department in meeting its goals and objectives.
- The Public Safety Department has been involved with several endeavors including the following:
 - Completion of the eighth full year of operating the Municipal Court.
 - Enhancing the Citizens Police Academy (12th Graduating Class) and Juvenile Hearing Board.
 - Continued the expansion support of a variety of programs such as Click It or Ticket, Community Policing, Senior Citizen, Ride Along, Junior Achievement, and Child Safety Programs.
 - Installed a Reverse 911 system [CodeRED], which will provide a method of communicating with town residents during emergency situations.
 - Initiated the design phase for the expansion of the existing police station.
 - Acquired use of the former Buck Hill Fire Tower to improve radio communications.
 - The Animal Shelter continues to have a solid reputation in response to public safety and public education. The shelter continues to have high return-to-owner and adoption rates. Over the course of the year CIP funding was used to replace the heating and a/c system, expand and repair fencing, and purchase of materials and supplies to complete the Quarantine Room.
- Administration:
 - The Town received the Certificate of Achievement for Excellence in Financial Reporting award from the Government Finance Officers Association.
 - Initiated the renovation of Carlton Brown building [the former Jesse Smith Library] which will house the Building, Planning and Information Services offices. This will eliminate the need to continue leasing space. The renovations were sufficiently completed to allow the offices to move in July 2008.

MAJOR INITIATIVES (Continued)

- Administration: (Continued)
 - The Town initiated a study to determine the feasibility of constructing a senior center.
 - The Town contracted with an engineering firm to conduct an overall review of the structural integrity of approximately fourteen dams located throughout the town. Additionally the Town, at the request of its residents, is considering the creation of a dam management district for a dam located at Pascoag Reservoir.
 - The Town's WEB site and GIS systems continue to be expanded and enhanced.
- During the fiscal year ending 2007, the Town received a rating upgrade from Fitch Investor's Service in October 2006 [to AA-] and retained its A1 rating from Moody's Rating Agency. In 2008, the Town's rating with Fitch was reaffirmed.

DEBT ADMINISTRATION

On January 8, 1997, the Town Council passed an ordinance establishing a Special Revenue Fund, which will be used solely for the prepayment of bonded indebtedness and unbudgeted capital expenses. The ordinance was created for two reasons; (1) to lessen the Town's reliance on Ocean State Power revenue, which is currently being used to fund operations before the PILOT agreement expires and (2) to address the Town's outstanding debt burden. It is projected that, under this program, the Town will either make an additional \$8 million in debt payments over the next four [4] years and/or directly pay for projects that it would have previously had to bond - thereby significantly reducing its existing debt obligations. The first phase of this debt reduction program was applied towards shortening the term of the debt associated with Steere Farm Elementary. The balance in this fund on June 30, 2008 was \$2,338,030 – however a significant portion of this fund is currently unavailable pending the final resolution of funding for the library construction projects.

Existing state statutes limit the issuance of general obligation bonds to 3 percent of net assessed property values. Fiscal year ending June 30, 1995 marked the first time that the Town had elected to issue bonds under RIGL 45-12-2. Due to time constraints, the Town Council voted to bond \$4.5 million for the purpose of renovating the former Meadow Glen Nursing Home under RIGL 45-12-2. A second issue for \$1 million, which was part of the \$8 million issue closed in 2000, was added to meet the remaining contractual obligations associated with the High School Renovation project. In December 2006, the Town issued \$3.5 million in RICWFA bonds under RIGL 45-12-2 to finance in the completion of ongoing expansion of sewer to the eastern portion of the Town. These three issues represent the only time that the Town has elected to issue bonds under RIGL 45-12-2. All other debt has been issued by legislative authority and voter referendum.

Withstanding these exceptions, all outstanding general obligation bond issues have been authorized through enabling legislation and voter approved referendum. On June 10, 1998, the Town Council voted to cancel the remaining sewer bond authority in the amount of \$240,400 (Agenda item #98-156). As of June 30, 2008, the Town's remaining authorized but unissued debt authority consists of the following - \$500,000 for open space projects (plus the balance of the RICW drawdowns) for wastewater projects. Recent bond issues that have been incurred by the Town included the following: Voter approval for the \$5 million library bond authority was received at the November 2004 general election. Construction for the new library began in the summer of 2006 and was opened on April 1, 2008. Wastewater construction on the eastern side of town is also ongoing and scheduled to take approximately two years.

DEBT ADMINISTRATION (Continued)

When the Town went to the bond market in the summer of 2000, the Town received a rating upgrade by both Fitch's Investors Service (from A to A+) and Moody's Rating Agency (from A2 to A1). The Moody rating was reaffirmed and the Fitch rating was again upgraded to AA- when the Town went to market in October 2006 and reaffirmed in 2008. This was especially noteworthy in the economy at that time where there have been a significant number of rating downgrades (particularly in New England). The credit rating has remained consistent and improved moderately because the Town has a long history of stable, sound financial management, which includes the maintenance of an unrestricted fund balance sufficient to cover its pending debt obligations.

Historically the Town has utilized a significant amount of its Unreserved, Undesignated Fund Balance as an interim source of revenue for operations. For many years, this has allowed the Town to avoid borrowing in anticipation of taxes. As of FYE 1994, the Town returned to its reserve policy objective relative to maintaining an unreserved undesignated fund balance that was the greater of either (1) 12% fund balance or (2) one year's annual debt payment. With the results of this year's operations, the Town is slightly below (11%) its minimal goal of maintaining a sufficient undesignated, unreserved fund balance. Maintenance of this minimal balance should be a priority as part of the overall process involved with improving our financial operations.

Bond rating companies look at four main factors when determining the credit worthiness of a municipal offering. The four factors are 1) debt, 2) economics, 3) fiscal, and 4) administrative. The Town has little control over its demographics and no control over the region's economy. The Town cannot control the fact that its median income is low or that it relies primarily on a residential tax base.

The Town can control its destiny in other areas such as carefully monitoring its debt burden, creating an effective program for capital improvements, limiting its tax rate and levy fluctuations, continued maintenance of a sufficient unrestricted fund balance to meet each current year debt obligations as well as interim cash flow needs, and the continued maintenance of a stable, professional management team.

In the interest of improving on our record of sound financial management, some additional goals being pursued include - improved budget reporting, improved interim reporting, improved utilization of available computer resources, completion of a fixed asset inventory system, implementation of various loss control and risk management practices, and finalization of a written financial manual, which would include the Town's accounting policies and procedures. The Town has begun to address some of these issues with the assistance of the Bryant University intern program and temporary staffing. Strengthening these areas will enable the Town to offset areas in which it is weak.

RISK MANAGEMENT

Burrillville is a member of the Rhode Island Interlocal Risk Management Trust (RIIRMT). The Trust was established by an act of the RI Legislature in July 1986 so that cities and towns could join together to assure the availability of insurance coverage and reasonably stable rates. The Town of Burrillville joined the Trust on October 1, 1986.

The Trust provides all property, liability, worker's compensation, life, and police officers' injured on duty insurance coverage for the Town. The Trust treats the Municipality, School Department, and Wastewater Treatment Facility as separate entities for insurance purposes. The Town annually reviews its coverage to insure that its insurance levels are both adequate and cost effective. Burrillville has representatives on the Trust Board and its sub-committees. The Town actively participates in the Trust's operation as well as its educational and training programs, which promote loss control measures and safety training.

RISK MANAGEMENT (Continued)

The Town (as a Medium Member) and Wastewater Treatment Plant (as a Small Member) were the recipients of the First Annual Loss Control Awards given by the Trust. Some loss control areas that the Town has been involved with since joining the Trust included the creation of a Safety Committee, development of a risk management manual, participation in various seminars/events sponsored by the Trust such as the new firearms simulator training system (FATS), and random drug and alcohol testing. In addition, where practical, the Town has adopted and updated formal risk management policies such as the Town's Sexual Harassment Policy revised on July 22, 1998 (#98-177) and its Controlled Substance and Alcohol Testing Policy revised on August 26, 1998 (#98-210). Updated personnel policies, including family and medical leave, were adopted on October 22, 2003 (#03-290).

As the scope of municipal services continues to expand, the Town will annually review its risk management policies to reduce exposure as much as is reasonably possible.

INDEPENDENT AUDIT

The Town Charter (Section 3.17) and state law requires an annual audit of the Town's financial condition by independent, certified public accountants. Cayer Caccia, LLP of Providence, Rhode Island has audited the financial statements of the Town of Burrillville for fiscal year ending June 30, 2008.

Cayer Caccia, LLP is a member of the American Institute of Certified Public Accountants and as such is subject to an external quality control review (i.e. peer review) conducted by specially trained certified public accountants from other firms. The auditor's report on the Town's basic financial statements is attached.

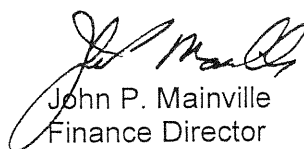

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Burrillville for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2007. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this annual financial report was made possible by the dedicated service provided by the staff in the Finance Department. The success of this department is based upon the daily efforts of its members as they carry out their respective duties and responsibilities. In addition, without the assistance and support of all Town Departments this report would not have been possible.

Sincerely,

John P. Mainville
Finance Director

INDEPENDENT AUDITOR'S REPORT

To the Honorable Town Council
Burrillville, Rhode Island

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Burrillville, Rhode Island, as of and for the year ended June 30, 2008, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Burrillville, Rhode Island's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Burrillville, Rhode Island, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2008, on our consideration of the Town of Burrillville, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The management's discussion and analysis, historical pension information and budgetary comparison information on pages 3 through 22 and 68 through 72, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Burrillville, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, detailed budgetary comparison information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Town of Burrillville, Rhode Island. The combining and individual nonmajor fund financial statements, detailed budgetary comparison information, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Cayer Caccia, LLP

December 22, 2008

Town of Burrillville, Rhode Island
Management's Discussion and Analysis
JUNE 30, 2008

The Town of Burrillville (the Town) provides this Management Discussion and Analysis (MD&A), a format prescribed by the provisions of Government Accounting Standards Board Statement 34 (GASB 34). This narrative overview and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Town's financial activity, (c) identify changes in the Town's financial position, (d) identify any material deviations from the financial plan, and (e) identify individual fund issues or concerns for fiscal year ending June 30, 2008.

This is the sixth year that the Town has presented its financial statements under the reporting model required by GASB 34. Because this reporting model changed significantly not only the presentation of financial data but also the manner in which information is recorded, it is not easily comparable to prior years.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year activities, resulting changes, and currently known facts, please read it in conjunction with the accompanying Transmittal Letter and the Town's financial statements.

Financial Highlights

- The total assets of the Town of Burrillville exceeded its liabilities at the close of the fiscal year ending June 30, 2008 by \$68.0 million (net assets). Of this amount, only \$9.8 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- As of June 30, 2008, the Town's governmental funds reported total net assets of \$40.6 million.
- The Town of Burrillville's total net assets increased by \$2.8 million, or 0.4%, for the year ended. Net assets of governmental activities decreased by \$0.1 million, a 0.1% decrease from fiscal 2007. Net assets of business-type activities increased by \$2.9 million, or 11.7% from 2007.
- The Town's general fund reported a fund balance of \$7.4 million at the end of fiscal year ending 2008. This compares to a fund balance of \$9.4 million at the end of fiscal 2007. The unreserved, undesignated fund balance for the year was \$5.1 million (\$6.8 million in 2007). This is a \$1.7 million decrease over the prior year unreserved fund balance.
- The Town ended the fiscal year with a budgetary operating excess of revenue over expenditures of \$2,071,501 in 2008. Included in this amount is \$1,554,565 of capital improvement funds; most of which (\$1,530,441) will be carried over to fiscal year ending June 2009.

Financial Highlights (Continued)

- The School Department ended the fiscal year with a budgetary excess of \$335,580 (\$18,870 deficit in 2007).
- The Town's total long-term liabilities increased by \$2,419,090 or 6.7% in 2008. The key factors in this increase included additional drawdowns from RICWFA totaling \$2,108,229 and additional Landfill closure costs of \$3,900,000. This increase is offset by scheduled debt service payments \$3,695,000.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Town of Burrillville's basic financial statements. The Town's basic financial statements include three components: 1) *Government-wide Financial Statements*, 2) *Fund Financial Statements*, and 3) *Notes to the Basic Financial Statements*. This report also contains additional required supplementary information (budgetary schedules) and other supplementary information (combining financial statements) in addition to the basic financial statements themselves. These components are described below:

Basic Financial Statements

The *Government-wide Financial Statements* present the financial picture of the Town from the economic resources measurement focus using the accrual basis of accounting. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Burrillville's finances, in a manner similar to a private-sector business. These statements include all assets of the Town (including infrastructure) as well as all liabilities (including long term debt). Additionally, certain eliminations have been made in regards to interfund activity, payables and receivables.

The *Fund Financial Statements* include statements for three categories of activities – governmental, proprietary, and fiduciary. The governmental activities are prepared using the current financial resources measurement focus and modified accrual basis of accounting. The proprietary funds are prepared using the economic resource measurement focus and the accrual basis of accounting. The fiduciary activities are agency funds, which only report a balance sheet and do not have a measurement focus. Reconciliation of the Fund Financial Statements to the Government-wide Financial Statements is provided to explain the differences created by the integrated approach.

Government-wide Financial Statements

The *Statement of Net Assets* presents information on all of the Town of Burrillville's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Town of Burrillville is improving or deteriorating.

Government-wide Financial Statements (Continued)

The *Statement of Net Assets* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, some revenues and expenses that are reported in this statement are for items that will only result in cash flows in future fiscal periods. This statement combines and consolidates governmental funds' current financial resources (short term spendable resources) with capital assets and long-term obligations. Other non-financial factors should also be taken into consideration, such as changes in the Town's property tax base and the condition of the Town's infrastructure (i.e. roads, drainage improvements, storm and sewer lines, etc.), to assess the overall health or financial condition of the Town.

The *Statement of Activities* presents information showing how the Town's net assets changed during the most recent fiscal year. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but not used vacation leave).

Both the *Statement of Net Assets* and the *Statement of Activities* are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in prior reporting models.

In the *Statement of Net Assets* and the *Statement of Activities*, the Town is divided into three kinds of activities:

- Governmental Activities – Most of the Town's basic services are reported here, including the police, planning and development, transportation, parks and recreation, and general administration. Property taxes and State Aid finance most of these activities.
- Business-type Activities - The Town charges a fee to customers to help it cover all or most of the cost of certain services it provides. The Town's sewer system, school cafeteria, rink and day care facilities are reported here.
- Component Units – The Town considered several important, separate legal entities in its report – including the Town's four fire districts (Harrisville, Nasonville, Oakland-Mapleville and Pascoag), the Harrisville Water District and the Pascoag Utility District. These entities are legally separate but did not meet the criteria set forth in GASB Statement 34. The Town also reviewed the Burrillville Redevelopment Agency and determined that the agency met the criteria to be disclosed as a discretely presented component unit.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the Town as a whole. Some funds are required to be established by state law and by bond covenants. However, the Town establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money. The Town's two kinds of funds - *governmental* and *proprietary* – utilize different accounting approaches.

Fund Financial Statements (Continued)

- Governmental Funds – The majority of the Town’s basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted into cash. The governmental fund statements provide a detailed short-term view of the Town’s general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town’s programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide statements, readers may better understand the long-term impact of the government’s near-term financing decisions. The relationships or differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds are detailed in a reconciliation following the fund financial statements.

The Town of Burrillville maintains numerous individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, and the School District, both of which are considered to be major funds. Data from the individual governmental funds are combined into a single, aggregated nonmajor fund presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

- Proprietary Funds – The Town charges customers for the services it provides, whether to outside customers or to other units within the Town. These services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the Town’s enterprise funds (a component of proprietary funds) are identical to the business-type activities that are reported in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds.

The Town of Burrillville maintains four individual enterprise funds. The Town uses enterprise funds to account for its sewer, school cafeteria, Levy Rink and extended day care facilities. The funds provide the same type of information as the government-wide financial statements - only in more detail. The proprietary fund financial statements provide separate information for the sewer, school cafeteria, Levy Rink and day care activities.

The Town as Trustee - Reporting the Town’s Fiduciary Responsibilities

- Fiduciary Funds - The Town is the trustee, or fiduciary, for a number of different activities including student activity and scholarship programs. All of the Town’s fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. The activities of these funds are excluded from the Town’s government-wide financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits to the employees and budgetary comparative information for the Town general fund and the School District general fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The Town's Overall Operations

As mentioned previously, the Town of Burrillville has prepared the fiscal year ending June 30, 2008 financials in a format prescribed by the Government Accounting Standards Board Statement 34 (GASB 34). This is the sixth year that the format has been used.

June 30, 2008

The Town's combined net assets were \$68.0 million in 2008. Analyzing the net assets and net expenses of governmental and business-type activities separately, the governmental activities are \$40.6 million and the business-type activities net assets are \$27.4 million in 2008. This analysis focuses on the net assets (Table 1), changes in net assets - activities (Table 2), and changes in general revenues and significant expenses of the Town's governmental, and business-type activities.

June 30, 2007

The Town's combined net assets were \$65.2 million in 2007. Analyzing the net assets and net expenses of governmental and business-type activities separately, the governmental activities are \$40.6 million and the business-type activities net assets are \$24.6 million in 2007. This analysis focuses on the net assets (Table 1), changes in net assets - activities (Table 2), and changes in general revenues and significant expenses of the Town's governmental, and business-type activities.

By far the largest portion of the Town's net assets (84.9 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1

Town of Burrillville
Statement of Net Assets - Primary Government
Year Ended June 30

	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total</u>

Net assets:						
Invested in capital assets, net of related debt	42,831,767	33,748,145	14,900,077	22,032,969	57,731,844	55,781,114
Restricted	490,529	106,568			490,529	106,568
Unrestricted	<u>(2,765,712)</u>	<u>6,766,810</u>	<u>12,546,693</u>	<u>2,536,364</u>	<u>9,780,981</u>	<u>9,303,174</u>
Total net assets	<u>\$40,556,584</u>	<u>\$40,621,523</u>	<u>\$27,446,770</u>	<u>\$24,569,333</u>	<u>\$68,003,354</u>	<u>\$65,190,856</u>

The decrease in current and other assets of approximately \$3.4 million is due primarily to a decrease in General Fund cash and cash equivalents of \$3.3 million. This decrease was the result of the completion of several major capital projects. The increase in capital assets of \$6.1 million is primarily the result of the renovation of the Levy Rink and the construction/renovation of Callahan Elementary School. The increase in noncurrent liabilities of \$2.4 million is primarily the result of the accrual of closure and post-closure future capping costs associated with the Whipple Avenue landfill.

The net assets in Business-type activities increased by \$2.9 million primarily due to additional costs for constructing sewer lines (\$2.1 million) and additional receivables (\$0.7 million) associated with the assessment of new sewer lines that were brought into service.

Net Assets, July 1	<u>40,621,523</u>	<u>36,334,008</u>	<u>24,569,333</u>	<u>21,602,251</u>	<u>65,190,856</u>	<u>57,936,259</u>
Net Assets, June 30	<u>\$40,556,584</u>	<u>\$40,621,523</u>	<u>\$27,446,770</u>	<u>\$24,569,333</u>	<u>\$68,003,354</u>	<u>\$65,190,856</u>

The increase in revenues of \$1.7 million is primarily the result of an increase of property taxes of \$1.1 million and a decrease in transfers out of \$0.8 million. The property tax increase is due to an increase in the tax levy. The decrease in transfers out is primarily due to a decrease in the transfer out from the Town General Fund to the Sewer Enterprise fund.

The increase in expenses of \$6.1 million are primarily due to an increase in Public Works of \$4.7 million, of which \$3.9 million related to the closure and postclosure landfill costs. Other expenses decreased by \$1.7 million due to the reallocation of employee benefits to their respective departments for fiscal year 2008.

The majority of the increase in Business-type activity revenue (\$0.8 million) relates to the additional assessments associated with new wastewater treatment lines that were put into service. Expenses for Business-type activities increased moderately from 2007 to 2008.

Review of Major Governmental Funds

General Fund

The General Fund is the primary fund through which the majority of the Town's revenues and expenditures flow. The Town finished the year within the limits established by the adopted budget. The Town carefully monitors its expenditures and eliminates all but the most necessary. When savings are incurred in a given area, every effort is made to avoid unnecessary spending so that those savings can be returned to the General Fund. During FYE 2008, there were thirteen [13] supplementary budget amendments to the General Fund in the amount of \$5.95 million, which primarily pertained to various capital improvements.

A comparative breakdown of revenues and expenditures associated with the General Fund on a budgetary basis for the fiscal years ending June 30, 2008 and 2007 is listed below. This information is provided for general purposes only.

The Town's general revenues increased when compared to the prior year by 2.91% or \$1,275,088.

	<u>FYE 2008</u>	<u>FYE 2007</u>	<u>% Change</u>	<u>\$ Change</u>
<u>Revenues</u>				
Property Taxes	\$25,130,561	\$24,081,205	4.36%	\$1,049,356
Intergovernmental Revenue	19,168,024	18,772,874	2.10%	395,150
Departmental Revenue	604,142	647,672	(6.72)%	(43,530)
Interest Income	<u>261,858</u>	<u>387,746</u>	<u>(32.47)%</u>	<u>(125,888)</u>
Total Revenues	<u>\$45,164,585</u>	<u>\$43,889,497</u>	<u>2.91%</u>	<u>\$1,275,088</u>

REVENUES

June 30, 2008

Actual revenues were \$180,979 more than budgeted. The primary reasons for the favorable revenue variance were:

- First, the Town exceeded its budget expectations in relation to the collection of property taxes. This was primarily due to an increase in tax collections over budgeted projections that totaled \$295,250 which includes tax revenue of \$287,677. The Town collected approximately 98.2% of the fiscal year 2008 tax levy.
- Second, the Town's intergovernmental revenue was short of budget by \$27,921. This year represents the ninth year of funding under the State's motor vehicle phase out program. Due to State budget issues, the State withheld \$109,168 in General Revenue Sharing and Medicaid Revenue was \$65,771 less than anticipated. These short falls were partially offset by increased construction aid of \$180,017 and distressed community aid of \$34,592.
- Third, interest income was under budget in the amount of \$19,142. The decrease is primarily attributed to the continued decline in interest rates.
- Fourth, there was a decline in departmental revenue and licenses, permits and fees in the amount of \$67,208 which was primarily attributed to a decline associated with licenses and fees (\$138,053), offset by an increase in services/assessments.

A comparison of actual expenditures incurred during FYE 2008 reveals that the Town expenses were \$1,769,127 less than the amount appropriated. This was achieved by limiting expenditures to essential services only. A significant portion of this amount relates to capital improvement activities. Of this amount, \$1,554,565 of capital improvements related to general administration, police, school, public works, and recreation, of which \$1,530,441 has been deferred and re-appropriated for FYE June 30, 2009.

The most significant governmental expense for the municipality during 2008 was in providing for public safety, which incurred expenses of \$2.41 million. The major components of public safety are police and animal control. Other significant governmental expenses for the municipality include public works at \$1.29 million; general government at \$1.51 million, which includes all administrative offices; general services (\$1.29 million) such as refuse collection/recycling; debt at \$4.96 million, and insurance/benefits at \$1.97 million.

June 30, 2007

Actual revenues were \$520,158 more than budgeted. The primary reasons for the favorable revenue variance were:

- First, the Town exceeded its budget expectations in relation to the collection of property taxes. There was an increase in tax collections and interest on delinquent taxes over budgeted projections that totaled \$165,601 which includes tax revenue of \$120,125. The Town collected approximately 97.78% of the fiscal year 2007 tax levy.
- Second, the Town received additional intergovernmental revenue totaling \$144,489, which included additional funding from motor vehicle phase out (\$32,472) and group home aid (\$75,000). This year represents the eighth year of funding under the State's motor vehicle phase out program.
- Third, additional interest income in the amount of \$215,746 was received. The increase is primarily attributed to the continued increase in interest rates after a prolonged period where rates were stagnant.
- Offsetting these increases was a decline in departmental revenue in the amount of \$5,678 which was primarily attributed to a decline in licenses and fees (\$73,686).

A comparison of actual expenditures incurred during FYE 2007 reveals that the Town expenses were \$2,980,239 less than the amount appropriated. This was achieved by limiting expenditures to essential services only. A significant portion of this amount relates to capital improvement activities. Of this amount, \$2,068,681 of capital improvements related to general administration, school, public works, and recreation, which have been deferred and re-appropriated for FYE June 30, 2008.

The most significant governmental expense for the municipality during 2007 was in providing for public safety, which incurred expenses of \$2.28 million. The major components of public safety are police and animal control. Other significant governmental expenses for the municipality include public works at \$1.11 million; general government at \$1.41 million, which includes all administrative offices; general services (\$1.37 million) such as refuse collection/recycling; debt at \$4.19 million, and insurance/benefits at \$1.92 million.

EXPENDITURES

The Town has continued its aggressive tax collection position, which was implemented several years ago. This again has resulted in the current year collections for the fiscal year ended June 30, 2008 being greater than anticipated. A 96.5% collection rate was budgeted for FYE 2008 and 98.2% was actually collected. The collection rate used for budgeting purposes was based upon historical collection data.

June 30, 2008

The net effect of operations as described above on the budgetary basis reveals that the Town completed fiscal year ending June 30, 2008 with a net excess of revenues over expenditures in the amount of \$2,071,501. Note that this amount included as revenue the budgeted amount of \$4,050,517 from the Unreserved, Undesignated Fund Balance. When this is factored out, there is actually a net decrease to fund balance associated with the excess of expenditures over revenues of \$1,979,016.

The Town's fund balance has decreased to \$7,396,572. The Town's fund balance is broken down into the following components and comprised of cash or other assets that will eventually be converted into cash such as receivables and equities:

1. An amount (\$453,941) attributed to tax sale property that was not bid on at public auction. The Town has subsequently acquired tax deeds over the years to protect its interest in those properties that have outstanding taxes/sewer assessments due.
2. An amount (\$217,973) reserved for amounts not due within one year. This amount relates to a Levy Rink loan given to the School Department as well as amounts due from Burrillville Redevelopment Agency, and Route 107.
3. An amount (\$1,530,441) already re-appropriated for use in fiscal year ending June 30, 2009. This is approximately \$538,131 less than the amount recorded at the end of fiscal year 2008.
4. Finally after all of the above items are considered, the value of the Town's Unreserved, Undesignated Fund Balance is \$5,118,585, which is a decrease of \$1,667,050 over last year's Unreserved, Undesignated Fund Balance (\$6,785,635).

This leaves an Undesignated, Unreserved Fund Balance on June 30, 2008 of \$5,118,585, which is approximately 11% of the total budget currently appropriated for FYE June 30, 2009 (\$46,190,589).

June 30, 2007

The net effect of operations as described above on the budgetary basis reveals that the Town completed fiscal year ending June 30, 2007 with a net excess of revenues over expenditures in the amount of \$3,581,866. Note that this amount included as revenue the budgeted amount of \$3,252,545 from the Unreserved, Undesignated Fund Balance. When this is factored out, there is actually a net increase to fund balance associated with the excess of revenues over expenditures of \$329,321.

The Town's fund balance has increased from \$9,046,267 to \$9,375,588 (net \$329,321). The Town's fund balance is broken down into the following components and comprised of cash or other assets that will eventually be converted into cash such as receivables and equities:

1. An amount (\$444,716) attributed to tax sale property that was not bid on at public auction. The Town has subsequently acquired tax deeds over the years to protect its interest in those properties that have outstanding taxes/sewer assessments due.
2. An amount (\$76,665) reserved for amounts not due within one year. This amount relates to a Levy Rink loan given to the School Department.
3. An amount (\$2,068,572) already re-appropriated for use in fiscal year ending June 30, 2008. This is approximately \$364,771 less than the amount recorded at the end of fiscal year 2006.
4. Finally after all of the above items are considered, the value of the Town's Unreserved, Undesignated Fund Balance is \$6,785,635, which is an increase of \$1,997,258 over last year's Unreserved, Undesignated Fund Balance (\$4,788,377).

This leaves an Undesignated, Unreserved Fund Balance on June 30, 2007 of \$6,785,635, which is approximately 14.7% of the total budget currently appropriated for FYE June 30, 2008 (\$46,006,606).

School District

June 30, 2008

The School District had revenues for the year ended June 30, 2008 of \$14.1 million. This was derived from \$12.7 million of intergovernmental revenues and \$1.4 million of other revenues. In addition to general operating revenues, the School District also received \$13.5 million of other financing sources in the form of transfers in from the General Fund.

Expenditures for the School District totaled \$28.1 million. This entire amount represents expenditures related to education.

The excess (deficiency) of revenues and other sources over expenditures and other uses was \$.25 million for the fiscal year ended June 30, 2008.

June 30, 2007

The School District had revenues for the year ended June 30, 2007 of \$14.1 million. This was derived from \$12.7 million of intergovernmental revenues and \$1.3 million of other revenues. In addition to general operating revenues, the School District also received \$14.3 million of other financing sources in the form of transfers in from the General Fund.

Expenditures for the School District totaled \$28.1 million. This entire amount represents expenditures related to education.

The excess (deficiency) of revenues and other sources over expenditures and other uses was \$.25 million for the fiscal year ended June 30, 2007.

Library Building

June 30, 2008

The Library Building Fund had revenues for 2008 of \$.43 million which was primarily derived from grants and donations. Expenditures for the library project totaled \$3.5 million. These expenditures represented the final costs associated with constructing and furnishing of the new library which opened in April 2008.

June 30, 2007

The Library Building Fund had revenues for 2007 of \$.7 million which was primarily derived from grants and donations. Expenditures for the library project totaled \$5.5 million. These expenditures represented the costs associated with constructing and furnishing the new library.

Business-type Activities

Proprietary Activities

June 30, 2008

Revenues of the Town's business-type activities, including transfers of \$2.2 million, were \$6.3 million for the fiscal year ending June 30, 2008. Expenses for the Town's business-type activities were \$3.4 million for the year, resulting in an increase in net assets of \$2.9 million. The increase in net assets was the result of several factors, including the following:

- The Town's sewer system recorded charges for services of \$2.4 million, transfers of \$2.1 million, and expenses of \$1.7 million resulting in an increase in net assets of \$2.9 million.
- The other nonmajor enterprise funds recorded charges for services of \$1.3 million, other revenues of \$0.3 million and expenses of \$1.7 million resulting in a decrease in net assets of \$34,126.

June 30, 2007

Revenues of the Town's business-type activities, including transfers of \$2.9 million, were \$6.2 million for the fiscal year ending June 30, 2007. Expenses for the Town's business-type activities were \$3.3 million for the year, resulting in an increase in net assets of \$2.9 million. The increase in net assets was the result of several factors, including the following:

- The Town's sewer system recorded charges for services of \$1.7 million, transfers of \$2.9 million, and expenses of \$1.7 million resulting in an increase in net assets of \$2.9 million.
- The other nonmajor enterprise funds recorded charges for services of \$1.3 million, other revenues of \$0.3 million and expenses of \$1.6 million resulting in an increase in net assets of \$34,876.

Capital Asset and Debt Administration

Capital Project Funds

The Town had several active capital projects in fiscal year end June 30, 2008.

Completed capital projects included the Rink, Pascoag Main Street, Football Field, and Computer Acquisition funds.

Some projects are continuing to carry residual balances including Route 102, Branch River/Hauser Fields, Levy Rink, Callahan Renovation, Library, Route 107, and the School Administration Building.

Active capital projects carried over from the prior year include the Annex, Rail Trail and the extension of sewer lines to the eastern villages. Additionally, the Town maintains revolving funds for the purpose of addressing Unfunded Liability/Incentive Pay, Open Space Land Acquisition, Debt Reduction, and Major Capital projects.

Capital Assets

At the end of the fiscal year 2008, the Town had \$90.7 million invested in a broad range of capital assets, including police and public work equipment, buildings, park facilities, roads, bridges, and sewer lines. (See Table 3 below.) This amount represents a net increase (including additions and deductions) of \$7.9 million or 9.6% over the prior fiscal year's net assets.

The presentation below lists the major categories of capital assets for governmental and business type activities. Infrastructure assets, which are assets that can be preserved for a significantly greater number of years than most capital assets and are typically stationary in nature such as streets, sidewalks, curbing and bridges, are subject to different rules under the GASB 34 standards.

Note that this is the seventh year that Burrillville reports fixed assets in its financials in accordance with GASB 34. The retroactive reporting of pre-GASB-34 infrastructure, roads, bridges, etc. has been completed in this fiscal year as required.

Table 3

Totals	<u>\$66,796,260</u>	<u>\$60,713,905</u>	<u>\$23,882,433</u>	<u>\$22,032,969</u>	<u>\$90,678,693</u>	<u>\$82,746,874</u>

This year's major capital expenditures included:

- Completion of construction and road/sidewalk improvements (Angell Road, East Wallum Lake, Tinkham, Douglas Turnpike, Town Farm Road, Lakeview Terrace, Oak, Maple, Walnut Hill).
- Construction of the Gazza Bridge.
- Completion of the high school football field, Callahan Elementary School, and library
- Acquisition of various equipment including DPW trucks and police vehicles.
- The School Department had funding (\$450,000) allocated towards various building and equipment needs.

The 2009 Capital Budget has been adopted and while individual projects are subject to change the 2009 capital budget calls for spending of approximately \$2.46 million for capital projects, principally in these major categories: economic development, libraries, parks and recreation, schools, and street improvements.

Additional information on the Town's capital assets can be found in Note 7.

Debt Administration

June 30, 2008

The total outstanding long-term bonded debt on June 30, 2008 was \$32,946,849 which represents a net decrease of 3.87% (\$1,325,038) from June 30, 2007 (\$34,271,887). This decrease was primarily the net effect of annual debt payments (\$3,701,267) on outstanding issues offset by additional drawdowns (\$2,108,229) from RICWFA for new sewer construction.

June 30, 2007

The total outstanding long-term bonded debt on June 30, 2007 was \$34,271,887 which represents a net increase of 17.6% (\$5,129,649) from June 30, 2006 (\$29,142,238). This increase was primarily the net effect of annual debt payments (\$2,893,512) on outstanding issues offset by the issuance of a \$5,400,000 general obligation bond and additional drawdowns (\$2,537,425) from RICWFA for new sewer construction.

Table 4

	Long Term Debt June 30 Governmental Activities	
	<u>2008</u>	<u>2007</u>
General Obligation Bonds	\$32,946,849	\$34,271,887
Compensated Absences	1,182,136	1,308,008
Landfill Post-Closure Costs	<u>4,290,000</u>	<u>420,000</u>
Totals	<u>\$38,418,985</u>	<u>\$35,999,895</u>

The Town does have overlapping debt totaling \$2,638,943, which is associated with long-term obligations incurred by three (3) Fire Districts. There is no legal obligation incurred by the Town on these debts. These Fire District debts are assessed against the same property that is being assessed by the Town.

Below is a comparison of various long-term bonded debt ratios for June 30, 2008 and June 30, 2007. Note that Loans Payable and Bond Anticipation Notes (BANS) are not incorporated in these calculations.

	<u>Various Debt Ratios</u>	
	<u>6/30/08</u>	<u>6/30/07</u>
Total Outstanding Long-Term Bonded Debt	\$ 32,792,356	\$ 34,111,127
Debt per Capita - 2000 Census (15,795) (State Average \$ 880)	\$ 2,076	\$ 2,160
Net Assessed Values	\$1,622,903,045	\$1,370,126,488
Debt to Net Assessed Values	2.02%	2.49%
Tax Rate per \$ 1,000	\$40.00	\$40.00
Split Rate (RE & MV)	11.60	13.15
Portion of Tax Rate Funding Debt - Percent of Tax Dollar	11.55%	15.26%
Credit Ratings -		
Fitch's Investor's Service	AA-	AA-
Moody's Rating Agency	A1	A1

The Town received a rating upgrade by both Fitch's Investor's Service (from A to A+) and Moody's Rating Agency (from A2 to A1) in 2000. Subsequently the Town's A+ credit rating with Moody's Rating Agency was reaffirmed and upgraded by Fitch's Investor's Service to AA- in 2006. Fitch Investor's Service again reaffirmed the AA- rating in 2008.

Historically the Town has utilized a significant amount of its Unreserved, Undesignated Fund Balance as an interim source of revenue for capital projects and other one time expenditures. For many years this has allowed the Town to avoid borrowing in anticipation of taxes. As of FYE 1994, the Town returned to its reserve policy objective relative to maintaining an unreserved undesignated fund balance that was the greater of either (1) 12% fund balance or (2) one year's annual debt payment. With the results of this year's operations, the Town at 11% is slightly below its minimal goal of maintaining a sufficient undesignated, unreserved fund balance. It is anticipated that this margin will be corrected in fiscal year 2009. Maintenance of this minimal balance will continue to be a priority as part of the overall process involved with improving our financial operations.

Bond rating companies look at four main factors when determining the credit worthiness of a municipal offering. The four factors are 1) debt, 2) economics, 3) fiscal, and 4) administrative. The Town has little control over its demographics and no control over the region's economy. The Town cannot control the fact that its median income is low or that it relies primarily on a residential tax base.

Additional information on the Town's long-term debt can be found in Note 8.

Economic Factors and Next Year's Budgets and Rates

The Town's elected and appointed officials considered many factors when setting the fiscal year 2009 budget, tax rates, and fees that will be charged for the business-type activities.

One of these factors is the economy. Some basic economic information regarding the Town of Burrillville is as follows:

- The unemployment rate for the Town of Burrillville is 5.5 percent. This compares to the State's average unemployment rate of 5.77 percent and the national average of 4.95 percent.
- According to the Tax Assessor, the average 2008 single family home in Burrillville is valued for assessment purposes at \$287,886, the average commercial property is valued at \$472,794; and the average industrial property is valued at \$848,032.
- The bond market remains favorable with its continued low interest rates and demand for municipal tax exempt debt which will provide a strong market for potential Town debt issues.
- Per capita income and median family income compares as follow:

	<u>Per Capita</u>	<u>Median Family</u>
Burrillville	\$ 21,096	\$ 52,587
Rhode Island	21,688	52,781
United States	21,587	50,046

A number of factors were considered when the Town's budget for the fiscal year ending June 30, 2009 was being prepared including the following:

- The School operating costs increased from \$27,208,976 to \$27,637,000 or 2.27%. The net dollar increase is \$428,024.
- Certain employment costs including health insurance and worker's compensation continued to rise significantly requiring reevaluation of those programs.
- Continuation of the Town's capital improvement program, which includes significant infrastructure upgrades. Note that, as in the past, the Town's CIP Budget does not include any reliance on the current year tax levy.
- The General Fund's largest single revenue source is property taxes – State revenue is second. The Town's tax rate increased from \$11.60 to \$11.85 per \$1,000 valuation for fiscal year ending 2009. This increase in the tax rate is primarily associated with the increased cost associated with the new library, utilities and personnel.
- Of this tax rate (\$11.85), 15.48% is utilized for General Fund activities and 72.97% is used for School Operations. The remaining 11.55% is used for debt service.

Economic Factors and Next Year's Budgets and Rates (Continued)

- Stated another way, 76.38% is allocated toward School Operations and Debt; 17.64% is allocated towards Municipal Operations and Debt; and 5.98% is allocated towards Wastewater Treatment Debt.
- The General Fund's portion of property tax revenue for FY 2009 is estimated to be \$21.1 million.

Requests for Information

Contacting the Town's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, at the Town of Burrillville, 105 Harrisville Main Street, Harrisville, RI 02830.

**RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET ASSETS
JUNE 30, 2008**

Amounts reported for governmental activities in the Statement of Net Assets differ because:

Total Fund Balances (B-1)	\$ 11,695,863
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	66,796,260
Long-term liabilities (including bond premium) are not due and payable in the current period and therefore are not reported in the funds.	(38,418,985)
Deferred revenues (net of an allowance for uncollectibles) are recorded in the funds, but are not deferred under the measurement focus employed in the Statement of Net Assets.	486,952
Accrued interest payable is recorded in governmental activities, but is not recorded in the funds.	(365,804)
Bond issuance costs are reported as expenditures in the Governmental Funds financial statements. The cost and related accumulated amortization is reflected as an other asset on the government-wide financial statements.	362,298
Total Net Assets (A-1)	<u><u>\$ 40,556,584</u></u>

TOWN OF BURRILLVILLE, RHODE ISLAND

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES (B-2) TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES (A-2)
YEAR ENDED JUNE 30, 2008**

Net Change in Fund Balances - Total Governmental Funds (B-2):	\$ (3,661,975)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	6,436,578
Governmental funds do not recognize gains or losses on the sale or disposal of capital assets. The statement of activities includes losses on the disposal of fixed assets during 2008.	(9,854)
On the Government-Wide financial statements, an adjustment was required to record capital assets at net realizable value.	(194,369)
Proceeds from the sale of a capital asset are recorded as revenue in the fund financial statements but not in the Government-Wide financial statements.	(150,000)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences.	1,325,038
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds. This amount is shown net of the allowance for uncollectible motor vehicle and tangible taxes.	(32,346)
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(3,744,128)
Adjustment to accrued interest payable related to general obligation bonds which is required to be recorded for government-wide financial statement presentation.	(8,321)
Bond issuance costs are reported as expenditures in the Governmental Funds financial statements. However, on the Government-Wide financial statements the bond issuance costs are amortized over the term of the bonds.	(25,562)
Change in Net Assets of Governmental Activities (A-2)	\$ (64,939)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Burrillville, Rhode Island (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America as applicable to governmental entities. In certain circumstances, summaries of the Town's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

The Town complies with generally accepted accounting principles (GAAP). Generally accepted accounting principles (GAAP) include all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide Statement of Net Assets and Statement of Activities, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Proprietary funds also apply the same principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

Reporting Entity

The Town of Burrillville was incorporated in 1806. The Town is governed under the 1989 Burrillville Home Rule Charter. The Town operates under a Town Council/Town Manager form of government with a seven-member Town Council headed by a Council President.

The Town Manager is appointed by the Council and serves as the chief executive officer over all municipal services.

A seven-member School committee, all elected at large, is vested with legislative authority over the public school system. The Superintendent of Schools, appointed by the School Committee, is the chief executive officer for the school system. The school system provides elementary and primary education to Town residents.

The accompanying financial statements present the government and its component unit. In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the Town applied the criteria prescribed by Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units." A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Town's discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the Town. Through the application of GASB Statement No. 39 and No. 14 criteria, the Burrillville Redevelopment Agency has been presented as a component unit of the Town, hereafter referred to as a "component unit", in the accompanying government-wide financial statements. The Burrillville Redevelopment Agency is included in the Town's reporting entity because of the significance of its operational and financial relationships with the Town.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

Discretely Presented Component Unit Disclosure - The following component unit is reported in a separate column to emphasize that it is legally separate from the Town but is included because the Town is financially accountable for and is able to impose its will on the organization. Unless otherwise indicated, the notes to the basic financial statements pertain only to the primary government because certain disclosures of the component unit are not significant relative to the primary government. A description of the component unit and its relationship with the Town is as follows:

Burrillville Redevelopment Agency (BRA) - The purpose of BRA is to encourage, direct, and regulate new development and redevelopment within Town districts, and to acquire and redevelop those areas, which the Agency determines cannot be redeveloped otherwise, in order to carry out the purposes of RIGL 1956 Chapter 45-31 to 45-33. The BRA is governed by a seven-member board, all of whom are appointed by the Town Council. The BRA does not issue separate financial statements and has a June 30 fiscal year.

Recently Issued Accounting Standards

The Town implemented GASB Statement No. 50 - Pension Disclosures - an amendment of GASB Statements No. 25 and No. 27 for the year ended June 30, 2008. The adoption of this statement did not have an impact on the Town's financial statements.

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 45 - Accounting and Financial Reporting by Employees for Post-employment Benefits Other Than Pensions, effective for the Town's fiscal year ending June 30, 2009.
- GASB Statement No. 51 - Accounting and Reporting for Intangible Assets, effective for the Town's fiscal year ending June 30, 2010.

The impact of these pronouncements on the Town's financial statements has not been determined.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They report information on all the nonfiduciary activities of the primary government and its component units. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, receivables and payables.

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b) Total assets, liabilities, revenues, or expenditures/expenses of the individual, governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the Town and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally or administratively restricted to expenditures for certain purposes.

Capital Project Funds

Capital Project Funds are used to account for resources restricted for the acquisition or construction of specific capital projects or items.

Permanent Funds

Permanent Funds are used to account for assets held by the Town pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds

Proprietary Funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. Operating revenues of the Proprietary Funds consist of customer/taxpayer charges for uses and services and certain other miscellaneous revenues. All other revenues of the Proprietary Funds are considered nonoperating sources of revenue.

Fiduciary Funds (Not included in government-wide statements)

Agency Funds

Agency Funds account for assets held by the Town in a purely custodial capacity. The reporting entity includes one agency fund. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations. The agency fund is as follows:

- Pupil Activity Funds

Major and Non-Major Funds

The funds are further classified as major or non-major as follows:

<u>Fund</u>	<u>Brief Description</u>
<i>Major:</i>	
General:	See above for description
Special Revenue:	Burrillville School District – This fund accounts for the operation and maintenance of the Burrillville Public Schools.
Capital Project:	Library Building – This fund accounts for monies utilized in the construction of a new library.
Proprietary:	Sewer Authority – This fund is used to account for the activities of the Sewer Commission.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Major and Non-Major Funds (Continued)

Non-Major:

Special Revenue:	School Restricted Grants, Other School Activities, Community Recreation, Town Clerk – Technology, Historical Records, Animal Shelter Donation Account, Library Grant, Violence Against Women, Byrne Grant, Spring Lake, Community Development Block Grant, Burrillville Tree Inventory, Unfunded Liability and Incentive Pay Fund, Recycling Program, Ocean State Power Funds, Narcotics Guidance Council, Police Grant – Operation Riptide, Police Task Force, Police Legislative Grant, Homeland Security, Health Care Contingency, Police Incentive Pay, Cops That Care, Bicentennial Committee, Senior Center, and Debt Reduction.
Capital Projects:	Municipal Annex Renovation, Rail Trail Harrisville/Pascoag, Open Space/Land Acquisition, Callahan Renovation Project, Major Capital, Route 102, Branch River/Hauser Field, Levy Rink Renovations, Route 107, Pascoag Main St. Revitalization, School Administration Building, Library Building, High School Football Field, and Computer Acquisition.
Permanent:	Cemetery Fund, Frank H. Potter Bridgeway Fund, Alice McGreevy Thompson Fund, and Jesse M. Smith Memorial Library Fund.
Proprietary:	School Cafeteria Fund, Levy Rink, and Extended Day Care.

Measurement Focus

On the government-wide Statement of Net Assets and the Statement of Activities both governmental and business-like activities are presented using the economic resources measurement focus as defined in item (b) below, and utilize the accrual basis of accounting.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- (a) All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period. The Town considers property taxes, franchise taxes, licenses, and interest as available if they are collected within 60 days after year-end. Substantially all other revenue of the governmental funds is recognized utilizing the modified accrual method of accounting, and as such, it is recognized as earned.
- (b) The proprietary fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of net income, financial position and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.
- (c) Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting

In the government-wide Statement of Net Assets and Statement of Activities both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available". Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Amounts reported as program revenues include charges to customers or applicants for licenses, fees, goods, services or privileges provided, operating grants and contributions, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal operation. The principal operating revenues of the enterprise funds are charges for services provided in accordance with the fund's purpose. Operating expenses for the enterprise funds include the costs of providing the services, including administration and depreciation on capital assets. All other revenue and expense items not meeting these criteria are reported as nonoperating revenues and expenses.

Accounts Receivable

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based on historical trends and the periodic aging of accounts receivable. The allowance for uncollectible accounts totaled \$240,534 for property taxes. Major receivable balances for the governmental activities include property taxes (35% of balance) and intergovernmental grants and aid (35% of balance). Business-type activities report usage and service fees as its major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes and grants and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible receivables are based upon historical trends and the periodic aging of accounts receivable.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deposits and Investments

Cash and cash equivalents are carried at cost. The Town's cash and cash equivalents consist of cash on hand, demand deposits, money market accounts, and short-term investments with original maturities of three months or less from the date of acquisition. Substantially, all of the Town's cash and cash equivalents are held in public deposit institutions or collateralized government investment pools, which are available on a daily basis.

Investments are stated at fair value. Investment income is recorded in the fund which it was earned.

Materials and Supplies

Inventories are maintained on a periodic system and are stated at cost (first-in, first-out method of inventory valuation). The costs of governmental fund-type inventories are recorded as expenditures when purchased.

Prepaid Items

Prepaid items, where applicable, are accounted for under the allocation method whereby a prepaid asset is established at the date of payment and subsequently amortized over the accounting periods expected to benefit from the initial payment. Prepaids recorded in governmental funds do not reflect current appropriated resources, resulting in the reservation of fund balance.

Property, Plant, and Equipment

Property, Plant and Equipment

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, long-lived assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. The capitalization threshold is any individual item with a total cost of greater than \$10,000.

Prior to July 1, 2002, infrastructure assets were not capitalized. During fiscal year 2007, the Town conducted a detailed study of all infrastructure assets in order to have a complete inventory of its infrastructure assets and be in compliance with GASB Statement No. 34. As of June 30, 2007, the government-wide financial statements include all infrastructure assets in accordance with GASB Statement No. 34.

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, Plant, and Equipment (Continued)

Government-Wide Statements (Continued)

Depreciation of all exhaustible capital assets is recorded, as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<u>Classes</u>	<u>Useful Life</u>
Buildings and improvements	5 - 50 years
Plant	25 years
Collection system	5 - 60 years
Equipment	5 - 20 years
Vehicles	5 - 20 years
Leasehold improvements	15 years
Infrastructure and land improvements	15 - 30 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Accrued Compensated Absences

Under the terms of various contracts and policies, Town employees are granted vacation and sick leave based on length of service. The amount recorded is the unused days earned at the current rate of pay. The Town's policy is to recognize the cost of vacation and sick leave in governmental funds when paid and on the accrual basis in proprietary funds. The amount of earned but unpaid vacation and sick leave relating to governmental fund employees is recorded as a long-term liability in the government-wide financial statements.

At June 30, 2008, the Town's obligation to its non-proprietary fund employees for accumulated vacation and sick leave benefits consisted of the following:

	<u>Vacation</u>	<u>Sick Leave</u>	<u>Total</u>
Police Department.....	\$ 87,015		\$ 87,015
Administrative Departments	46,477		46,477
Public Works Department	35,300		35,300
School District	39,812	\$973,532	1,013,344
TOTAL.....	<u>\$208,604</u>	<u>\$973,532</u>	<u>\$1,182,136</u>

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

Advances to Other Funds

Noncurrent portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available resources and, therefore, are not available for appropriation.

Interfund Transfers

The principal purpose of interfund transfers is to provide a financing source to various funds that may not have the ability to cover all operating costs with revenue generated by the fund.

Land Held for Resale

Land held for resale by the Burrillville Redevelopment Agency (a discretely presented component unit) is stated at acquisition cost plus improvements, but not in excess of net realizable value. As land is sold, all costs associated with that land are expensed.

Bond Premiums and Issuance Costs

In the governmental fund financial statements, bond premiums and issuance costs are treated as period costs in the year of issue. Bond issuance costs are shown as an "expenditure" and bond premiums are reflected as an "other financing source".

In the government-wide statements, bond premiums and issuance costs are deferred and amortized over the term of the bonds. Bond premiums are presented as an addition of the face amount of the bonds payable whereas issuance costs are recorded as other assets.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in certain governmental funds. Open encumbrances are reported as reservations of fund balances. Encumbrances do not constitute expenditures or liabilities under generally accepted accounting principles.

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Equity Classifications

Government-Wide Statements

Equity is classified as net assets and displayed in three components:

- (a) Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- (b) Restricted net assets - Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- (c) Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements.

Reconciliation of Government-Wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$6,436,578 difference are as follows:

Capital outlay.....	\$8,614,850
Depreciation expense.....	<u>(2,178,272)</u>
Net adjustment to increase <i>net change in fund balances-</i> <i>total governmental funds</i> to arrive at <i>change in net assets</i> <i>of governmental activities</i>	<u>\$6,436,578</u>

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reconciliation of Government-wide and Fund Financial Statements (Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that "the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$1,325,038 difference are as follows:

Issuance of general obligation bonds.....	\$(2,376,229)
Principal repayments – general obligation debt	3,695,000
Amortization of bond premium	28,215
Amortization of deferred charge on refunding	<u>(21,948)</u>
Net adjustment to decrease <i>net change in fund balances-</i> <i>total governmental funds</i> to arrive at <i>change in net assets</i> <i>of governmental activities</i>	<u>\$ 1,325,038</u>

Another element of that reconciliation states that, "Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds." The details of this \$32,346 difference are as follows:

Deferred revenue – beginning.....	\$(519,298)
Deferred revenue – ending.....	<u>486,952</u>
Net adjustment to reduce <i>net change in fund balances-</i> <i>total governmental funds</i> to arrive at <i>net change in net</i> <i>assets-governmental activities</i>	<u>\$ (32,346)</u>

Another element of that reconciliation states that "some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$3,744,128 difference are as follows:

Decrease in liability for compensated absences	\$ 125,872
Increase in liability for landfill closure	<u>(3,870,000)</u>
Net adjustment to increase <i>net change in fund balances -</i> <i>total governmental funds</i> to arrive at <i>change in net assets</i> <i>of governmental activities</i>	<u>\$(3,744,128)</u>

Another element of that reconciliation states that "adjustment to accrued interest payable related to general obligation bonds which is required to be recorded for government-wide financial statement presentation". The details of this \$8,321 difference are as follows:

Accrued Interest – beginning.....	\$ 357,483
Accrued Interest – ending	<u>(365,804)</u>

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

2. BUDGETARY PROCESS

(a) Adoption

The annual budgetary process begins in January each year when the various Town departments and agencies submit their budget requests to the Budget Board. The Budget Board then reviews the requests, holds hearings as necessary, and submits their recommendations to the Manager no later than the first Monday in April.

The Town Manager is responsible for submitting a proposed departmental budget to the Town Council no later than the first Monday in May. At least two (2) public hearings are to be held and concluded by the first Monday in June. The Town Council may revise and adopt its budget no later than June 15th.

There is a provision for item veto by the Manager as well as voter initiative. The level of budgetary control for the General Fund (i.e. the level at which expenditures cannot legally exceed appropriations) is fixed by Council resolution. The resolution authorizes the spending within the total sum appropriated for municipal purposes. At any time during the fiscal year, the Town Council may by resolution transfer part or all of the unencumbered appropriation balance from one department to another department. While this restriction prohibits spending in excess of the authorized budget, the policy enables the Town Council to use unexpended funds within the overall appropriations budget to offset overexpenditures that may arise within a specific budgeted account.

Management may transfer part or all of any unencumbered appropriation balance within its respective department. Budgeted departments are defined by the Town Council through the budget resolution.

Based on state statute, the School Committee is also authorized to spend funds up to the total amount appropriated. The budget of the School District is prepared annually and submitted by the School Committee to the Budget Board. The amount of the annual transfer from the Town's General Fund to the School Special Revenue Fund is ultimately determined through the adoption of the General Fund budget each year.

Budget appropriations lapse at the end of the fiscal year. There were 13 supplemental budgetary revisions made during the year totaling \$5,951,517. These budgetary revisions were primarily related to capital improvements.

(b) Reconciliation - Budgetary to GAAP

The Town Charter requires annual budgets for the General Fund and Special Revenue - General School Activities. The practices used in the preparation of the 2008 budget differ in certain respects from the presentation of the actual results of operations prepared in accordance with GAAP. The actual results of operations, for purposes of the Statement of Revenues, Expenditures, Other Financing Sources (Uses) - Budget and Actual on a Budgetary Basis - General Fund, and Special Revenue Fund - General School Activities, have been adjusted to a basis consistent with the Town's budget for 2008.

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

2. BUDGETARY PROCESS (Continued)

The adjustments necessary to reconcile actual revenues and expenditures reported on a budgetary basis to actual revenues and expenditures reported in accordance with generally accepted accounting principles are as follows:

	<u>Revenues and Transfers</u>	<u>Expenditures and Transfers</u>
General Fund:		
Statement of Revenues and Expenditures (Non-GAAP Budgetary Basis) (E-2).....	\$53,668,726	\$51,597,225
Less: Transfer from Fund Balance to revenue for current year	(4,050,517)	
Less: School Department revenues included in General Fund Budget	(12,727,901)	
Less: School Department expenditures included in General Fund		(12,727,901)
Statement of Revenues, Expenditures, Other Financing Sources (Uses) and Changes in Fund Balance (B-2).....	<u>\$36,890,308</u>	<u>\$38,869,324</u>

A reconciliation of the School District's General Fund revenues, expenditures and other financing sources (uses) as reported on schedules B-2 and E-3 is presented below:

	<u>Revenues and Transfers</u>	<u>Expenditures and Transfers</u>
Statement of Revenues, Expenditures and Other Financing Sources (Non-GAAP Budgetary Basis) Budget and Actual (E-3).....	\$27,224,877	\$26,889,297
Less: Current year encumbrances		(53,613)
Add: Prior year encumbrances		135,875
Adjustment for pension contribution made by State of Rhode Island on behalf of employees	<u>1,137,105</u>	<u>1,137,105</u>
Statement of Revenues, Expenditures, Other Financing Sources (Uses) and Changes in Fund Balances – Governmental Funds (B-2)	<u>\$28,361,982</u>	<u>\$28,108,664</u>

The School Department had an excess of revenues over expenditures of \$335,580 on a budgetary basis.

3. DEPOSITS AND INVESTMENTS

(a) Deposits

Custodial credit risk, deposits - Custodial credit risk is the risk that in the event of bank failure, the Town's deposits may not be returned or the Town will not be able to recover collateral securities in the possession of an outside party. The Town's investment policy does not address custodial credit risk.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

3. DEPOSITS AND INVESTMENTS (Continued)

(a) Deposits (Continued)

The Town maintains deposits at local financial institutions. At year end, the carrying amount of such deposits was \$10,789,996 while the bank balance was \$11,004,903, of which \$383,887 was covered by federal depository insurance and \$10,621,016 was collateralized.

The following is a reconciliation of the Town's cash and investment balances as of June 30, 2008:

Cash and investments - primary government:

Governmental and business-type (Schedule A-1).....	\$17,746,944
Fiduciary (Schedule D-1).....	205,172
Cash and investments - Burrillville Redevelopment Agency (Schedule A-1)	18,878
Total cash and cash equivalents	<u>\$17,970,994</u>

(b) Investments

The Town has implemented the provisions of GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," which requires that investments be reported at fair value. Fair values are established by quoted market values. Unrealized gains and losses from changes in fair value are recognized as investment income.

Interest rate risk - The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Town minimizes its exposure to interest rate risk by investing in short-term, highly liquid investments.

Custodial Credit Risk, Investments - The Town does not have a formal custodial credit risk policy. Custodial credit risk is the risk that in the event of financial institution failure, the Town's investments may not be returned or the Town will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. As of June 30, 2008, the Town had \$512,596 of uncollateralized institutional money market funds which invest in U.S. government obligations.

Concentration of Credit Risk - At June 30, 2008, the Town had 93% of its investments concentrated in collateralized local government investment pools, and 7% concentrated in uncollateralized institutional money market funds. The Collateralized Local Government Investment Pool (LGIP) invests public-sector funds only in U.S. Treasury and other U.S. Government securities permitted under Rhode Island law. The LGIP's provides collateral at a 102% minimum. The LGIP is fully compliant with all Rhode Island laws, investment guidelines and collateral requirements, and is managed within the guidelines of a registered SEC 2-a7-type fund. At June 30, 2008, the Town did not have any investments in common stock or other equity investments.

The Town's investments are stated at fair value. As outlined in the Town's investment policy, funds of the Town may be invested in the following instruments:

1. Obligations of the Federal Government, its agencies, and instrumentalities;
2. Top rated obligations of the State of Rhode Island, its agencies, and instrumentalities;
3. Top rated obligations of other states, their agencies, and instrumentalities;
4. Top rated (AAA, AA, A) Municipal Government Securities;

3. DEPOSITS AND INVESTMENTS (Continued)

(b) Investments (Continued)

5. Certificates of Deposit and other evidence of deposit at banks, saving banks, national banks or trust companies, loan and investment companies, and credit unions;
6. Prime Bankers' Acceptances;
7. Prime Commercial paper (A1/P1);
8. Prime Corporate and Utility Bonds and/or Notes (BBB or Higher);
9. Collateralized Repurchase Agreements;
10. Prime Money Market Funds whose investments consist of instruments in items 1 - 8 above;
11. State investment pools;
12. No load, open-end diversified management investment companies incorporated under the General Laws of the State and designed exclusively for use by all state and local government entities, agencies, and instrumentalities.

As of June 30, 2008, the Town had the following investments:

<u>Description</u>	<u>Fair Value</u>	<u>Interest Rate</u>	<u>Maturity</u>	<u>Rating</u>
Institutional Money Market Funds-				
U.S. Treasury	\$ 512,596	Varies (2)	Daily	Aaa/AAAm
Collateralized Local Government Investment Pool	6,658,483	Varies (1)	Daily	not rated
Certificate of deposit	<u>3,242</u>	2.72%	May 22, 2009	not rated
Total investments	7,174,321			
Deposits	10,789,996			
Petty cash and cash on hand	<u>9,919</u>			
Total cash and investments	<u>\$17,974,236</u>			

(1) Average daily rate of 2.04% on June 30, 2008.

(2) Annualized 30 day yield of 1.24% for June 2008.

The carrying value of deposits and investments relate to the combined balance sheet totals (A-1) as follows:

Reconciliation to Government-wide Statement of Net Assets:

Investments	\$7,174,321
Less: investments classified as cash equivalents	(7,171,079)
Less: fiduciary funds investments (not included in the government-wide statement)	<u>(3,242)</u>
Total investments (A-1)	<u>\$ 0</u>

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

4. TAXES RECEIVABLE AND DEFERRED REVENUE

The Town's property tax is levied each June 30, for its next fiscal year on the assessed values listed as of the prior December 31 (lien date), for all real property, tangible property, and motor vehicles located in the Town. Assessed values of real property and tangible personal property were established by the Town Assessor's office at 100% of appraised market value as of December 31, 2006. The assessed value of motor vehicles is determined annually at 100% as established by the State Vehicle Value Commission.

An automatic lien is placed on the taxpayer's property if payment has not been received by the due date. Interest is charged on past due accounts at a rate of 12% per annum calculated on the unpaid portion of the total tax. Taxes are due in full by August 1, or at the option of the taxpayer they may be paid in quarterly installments on August 1, November 1, February 1, and May 1 following the levy date.

Net property taxes levied for the fiscal year 2008 were based on an assessed value of approximately \$1,622,903,045 at December 31, 2006 and amounted to \$20,379,384. Collections on the 2008 tax levy through June 30, 2008 amounted to \$20,002,834, which represents 98% of the total tax levy.

The Town recognizes property tax revenues in accordance with Section P70, "Property Taxes" of the Codification of Governmental Accounting and Financial Reporting Standards. Unpaid property taxes as of June 30, 2008 (\$866,946) are recorded as a receivable, net of an allowance for uncollectible property taxes of \$240,534. Those net property taxes receivable which were not collected within the 60 days immediately following June 30, 2008 are recorded as deferred revenue and amounted to \$486,952 at June 30, 2008. Property taxes recognized as revenue for the fiscal year ended June 30, 2008 (due to their collection within the 60 days immediately following June 30, 2008) amounted to \$139,460.

User charges are assessed each year in an amount necessary to cover the projected operating expenses of the Sewer Commission fund for that year. The allowance for uncollectible accounts of the Sewer Commission fund is based on that portion of sewer assessment and user charges and miscellaneous accounts receivable which is estimated to be doubtful of collection, or which may be abated due to appeals now under consideration. In addition, the Sewer Commission has unrecognized assessment receivables of approximately \$378,012. These receivables are only collectible upon the transfer of title to the property.

In the government-wide financial statements, deferred revenues represent funds received in advance of being earned, or receivables which will be collected and included in revenues of future fiscal years.

8. LONG-TERM LIABILITIES (Continued)

(b) Bonds and Notes Outstanding (Continued)

During the fiscal year ended June 30, 2008, the Town retired \$3,695,000 in principal on its existing outstanding bonds and loans. During fiscal year 2007, the Town issued a \$3,500,000 Sewer Bond of which \$296,127 was drawdown in fiscal year 2007 and \$2,108,229 was drawdown during fiscal year 2008. The balance remaining to be drawdown is \$1,095,644.

During the fiscal year ended June 30, 2008, the Town incurred the following interest expense:

Library bonds.....	\$ 201,938
Sewer bonds	149,543
School bonds.....	699,784
Refunding bonds	215,479
Economic development bonds	1,043
Total	<u>\$1,267,787</u>

The Town has issued three bonds under the Maximum Aggregate Indebtedness provision (3% Debt Limit) of the Rhode Island General Laws 45-12-2. The three bonds issued consisted of a 1995, \$4,500,000 School bond issue; \$1,000,000 of the 2000 \$8,000,000 School bond issue; and the 2006 \$3,500,000 Wastewater bond issue. All other Town debt has been incurred through special statutory authority which consists of approval by the legislature and voter referendum.

(c) Small Business Loan Fund Corporation (SBLFC)

During fiscal year 2008, the Town received Brownsfields Cleanup Revolving loan proceeds of \$335,000. Due to the Town's compliance with the loan agreement, \$67,000 of the original loan proceeds was forgiven and reclassified as a grant. The balance of the loan (\$268,000) was repaid during the fiscal year. The loan had an original repayment term of 60 months and required interest at 8.25 %.

10. DEFINED BENEFIT PENSION PLANS

(a) Municipal Employees' Retirement System of the State of Rhode Island

Plan Description

The Town's defined benefit pension plan, Municipal Employees' Retirement System of the State of Rhode Island (MERS), provides retirement and disability benefits, annual cost-of-living adjustments, death and disability benefits to plan members and beneficiaries. MERS is an agent multiple-employer Public Employee Retirement System that acts as a common investment agent for participants. The Municipal Employees' Retirement System of the State of Rhode Island issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of Rhode Island Employee Retirement Board, 40 Fountain Street, Providence, RI 02903.

The payroll for employees covered by the System for the year ended June 30, 2008 was approximately \$5,306,187 and the Town wide payroll (municipal, police, and school) was approximately \$21,568,345.

Funding Policy

MERS members are required to contribute 7.0% of their annual covered salary. The Town is required to contribute at an actuarially determined rate; the current rate is 4.74% of annual covered payroll. The contribution requirements of plan members and the Town are established and may be amended by State Statute.

Annual Pension Cost

For 2008, the Town's annual pension cost of \$251,498 for MERS was equal to the Town's required and actual contributions. The required contribution was determined as part of the June 30, 2005 actuarial valuation using the entry age normal cost method with frozen initial liability. Significant actuarial assumptions included (a) a net investment return of 8.25 percent compounded annually, (b) projected salary increases at an annual service related component plus a 3% inflation component compounded annually, (c) 3 percent per year cost-of-living adjustments, (d) mortality rates based on the 1994 Group Annuity Mortality Table and (e) a retirement age of 65 or completion of service requirements, if later. The actuarial value of MERS assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. MERS unfunded actuarial accrued liability is being amortized using the weighted average method over a 25 year period.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

10. DEFINED BENEFIT PENSION PLANS (CONTINUED)

(b) Municipal Police Pension Plan

Plan Description

All full-time police members participate in the same Municipal Employee's Retirement System of the State of Rhode Island (described above).

The payroll for employees covered by the System for the year ended June 30, 2008 was approximately \$1,278,000 and the Town wide payroll (municipal, police, and school) was approximately \$21,568,345.

Funding Policy

Covered police employees were required to contribute 10.2% of their annual covered salary. The Town is required to contribute at an actuarially determined rate the remaining amounts necessary to fund the System. The Town contributed 23.32% of annual covered salaries for the year ended June 30, 2008. The contribution requirements of plan members and the Town are established and may be amended by State Statute.

Annual Pension Cost

For 2008, the Town's annual pension cost of \$298,110 for the Police Pension System was equal to the Town's required and actual contributions. The required contribution was determined as part of the June 30, 2005 actuarial valuation using the entry age normal cost method with frozen initial liability. Significant actuarial assumptions included (a) net investment return of 8.25 percent compounded annually, (b) projected salary increases at an annual service related component plus a 3% inflation component compounded annually, (c) mortality rates based on the 1994 Uninsured Pensioner Mortality Table, and (d) a retirement age of 60, or completion of service requirements, if later. The actuarial value of MERS' assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. Any MERS unfunded actuarial accrued liability is being amortized using the weighted average method over a 25 year period.

(c) Teacher's Pension Plan

Plan Description

All full-time teachers including superintendents, principals, school nurses and certain other school officials ("classified employees") in the Burrillville School District participate in the Employees Retirement System of the State of Rhode Island (ERSRI), a cost-sharing multiple-employer public employee retirement system. In addition to classified employees, the System covers substantially all employees of the State of Rhode Island. The payroll for employees covered by the System for the year ended June 30, 2008, was \$13,346,299; the total payroll for all School employees was \$17,574,345.

The plan issues a stand-alone publicly available financial report that includes financial statements and required supplementary information. A copy of the report can be obtained from the State Employees Retirement Board, 40 Fountain Street, Providence, Rhode Island 02903.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

10. DEFINED BENEFITS PENSION PLANS (Continued)

(c) Teacher's Pension Plan (Continued)

Plan Description (Continued)

All full-time classified employees of the Burrillville School District are eligible to participate in the System. Classified employees who retire at or after age 60 with 10 years of credited service or at any age with 28 years of credited service are entitled to a retirement benefit payable monthly for life. The retirement benefit is a percentage of final average salary per year of credit service with a maximum benefit of 80% of "final average" salary. Final average salary is the three highest consecutive years of earned salary excluding overtime, bonuses, or severance pays. The System also provides death and disability benefits. Benefits are established and may be amended by State statute. The percent of earnings relating to each year of credited service is as follows:

<u>Years of Credited Service</u>	<u>Percent/Year</u>
1 - 10	1.7%
11 - 20	1.9%
21 - 34	3.0%
35	2.0%

Funding Policy

Rhode Island general laws set the contribution rates for participating State employees at 9.5% of salary. Annual contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as percentage of participants' payroll. The School District was required to contribute 12.38%, 10.96%, and 9.05%, for all full-time employees for fiscal years 2008, 2007, and 2006 respectively. The required contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1986 over 30 years; and (c) interest on the unfunded frozen actuarial liability. Normal cost is determined using the entry age normal cost method with frozen initial liability. Both employers and employees contribute 1% of the first \$9,600 of salary for survivor benefits. A variety of significant actuarial assumptions are used and these assumptions are summarized below:

- A. ***Mortality*** - 1994 Group Annuity Mortality Tables.
- B. ***Investment return*** - 8.25 percent, compounded annually.
- C. ***Salary increase*** - Salaries will increase at a rate of 3.0 percent, inflation component, plus a 1.5% general increase.
- D. ***Retirement age*** - Teachers are assumed to retire at the later of age 61 or completion of the service requirements.
- E. ***Cost of living adjustments*** - 3.0 percent compounded annually beginning on the January 1st following a participant's third anniversary of retirement.

As prescribed by Rhode Island general law, the State pays the entire portion of the annual required contribution attributable to the costs of contributions deferred by the State in prior years plus 40% of contributions assessed to employers on payroll not reimbursable through Federal programs. This resulted in contribution rates paid by the State on behalf of the School District of 8.52% of non-federally reimbursable payrolls, totaling \$1,137,105 for fiscal year ended June 30, 2008. This amount was recognized in the School District fund as both a revenue and an expenditure.

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

10. DEFINED BENEFIT PENSION PLANS (Continued)

(c) Teacher's Pension Plan (Continued)

Funding Policy (Continued)

The amounts contributed to the plan are as follows:

<u>Years Ending June 30,</u>	<u>Employee</u>	<u>Employer</u>	<u>Percentage Contributed</u>
2008	\$1,267,898	\$1,698,584	100%
2007	\$1,275,932	\$1,514,693	100%
2006	\$1,315,110	\$1,289,164	100%

In accordance with GASB 27, "Accounting for Pensions by State and Local Governmental Employers," the School District has determined that there is and has been no pension liability or assets related to the Plan.

11. CONTINGENT LIABILITIES

Board of Administration

The Town is committed under an agreement for the rental of the Town Hall facilities. The terms are determined by the Board of Administration as provided under the will of Austin T. Levy. Total payments made for fiscal year ending June 30, 2008 totaled \$169,550. Total payments to be made for fiscal year ending June 30, 2009 total \$191,029 consisting of \$157,029 for rental of Town Hall facilities and \$34,000 for capital improvements.

School District

In April 2006, the School District entered into an agreement for comprehensive energy management consultation for a monthly fee of \$5,600 for 48 months. The total amount expended under the contract for the year ended June 30, 2008 was \$67,200.

Grants

Under the terms of federal and state grants, periodic compliance audits by the grantors or their representatives are required and, consequently, certain costs may be questioned as not being appropriate, and result in reimbursement to the grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies could not be determined at this time. Town officials believe that such disallowances, if any, would not be material.

Self-Insurance

The Town has elected to pay unemployment compensation on a claims-made basis rather than as a percentage of payroll. No accrual has been made for claims expected to arise from service related to fiscal 2008 because Town officials are of the opinion that, based upon prior years' experience, any claims relating to this period will be immaterial.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

11. CONTINGENT LIABILITIES (Continued)

Litigation

The Town is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Town's attorneys, the resolution of these matters will not have a materially adverse effect on the financial condition of the Town.

12. POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS

The Town pays 50% - 100% of the cost of health insurance benefits for certain employees for a maximum up to four years after retirement. The Town pays 100% of the cost of health coverage for retired employees only for the first two years and 50% for the next two years. The Town funds post employment benefits on a pay as you go basis. Expenditures for the benefits described above for the year ended June 30, 2008, were \$21,425. During the year ended June 30, 2008, two retirees received benefits under this plan.

13. MAJOR REVENUE SOURCE

The Town has a tax treaty and agreement with Ocean State Power (OSP), an electric generating facility, which requires OSP to pay the Town annual fixed payments in lieu of taxes according to the following schedule:

<u>June 30:</u>	<u>Amount</u>
2009	\$ 4,710,714
2010	4,965,773
2011	3,567,462
2012	<u>1,016,865</u>
Total	<u>\$14,260,814</u>

During fiscal year ending June 30, 2008 the Town received \$4,560,714 in payments from OSP. The agreement with OSP is based upon OSP operating two electric generating units commercially. If one or both electric generating units are not operating commercially, then the required payments under the agreement may be reduced or eliminated.

On June 21, 1996 an amended agreement was entered into which requires OSP to pay an additional \$850,000 over the life of the remaining agreement as a result of the construction of a Water Storage Pond adjacent to Route 102. This additional amount is included in the above revenue schedule.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

14. CONSTRUCTION COMMITMENTS

As of June 30, 2008, the Town had the following commitments with respect to unfinished capital projects:

Municipal Annex Renovation	<u>\$2,000</u>
Total	<u>\$2,000</u>

15. DEFERRED COMPENSATION PLAN

The Town offers its municipal employees a deferred compensation plan established in accordance with the provisions of Internal Revenue Code Section 457. The Plan, available to all municipal employees, permits the deferral of a portion of their salary. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The Town has implemented the Governmental Accounting Standards Board, Statement No. 32, "Accounting for Internal Revenue Code Section 457 Deferred Compensation Plans." All assets and income of the plan are held in trust for the exclusive benefit of the participants and their beneficiaries. As a result, deferred compensation investments and the perspective liability have not been included in the Town's financial statements for the year ended June 30, 2008.

16. RISK MANAGEMENT

The Town of Burrillville is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) which provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement which outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its Members. Under the participation agreement, the Town is insured for general liability for a maximum of \$5,000,000 per occurrence. There have been no reductions in insurance coverage from coverage in the previous year. Settled claims resulting from these risks have not exceeded the Trust Coverage in any of the past 20 fiscal years.

During the fiscal year ended June 30, 2008, the Town paid premiums of \$125,485 for workers' compensation coverage and \$125,409 for property and liability coverage.

At June 30, 2008, the Trust held reserves for future payments of open cases of \$168,584 for property and liability claims. The Trust is obligated to make payments on the Town's behalf without any further obligation of the Town, unless the Town's applicable limit of liability was exhausted by the size of the loss or the nature of the loss would fall outside the parameters of the Trust policy. As of June 30, 2008, the Town believes there is minimal, if any, potential exposure for outstanding claims which would fall outside the parameter of the Trust policy.

The above reserves do not include reserves for any claims associated with the School District or Sewer Commission Fund because they are treated by the Trust as separate entities having their own coverage.

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

17. LOAN RECEIVABLE – SCHOOL DISTRICT

During April 1998, the Town's general fund loaned the School District's general fund \$200,000 to be used for improvements to the June R. Levy Community Rink. The note required interest at 5% and ten (10) annual principal payments of \$20,000 beginning June 1, 1999 through June 1, 2008.

On February 25, 2004, the Town Council amended the promissory note. During fiscal year 2004, the Town loaned the School Department an additional \$85,000 for the purchase of equipment. The amount of the amended note is \$185,000. The note requires interest at 3% and is payable over a ten year period beginning June 1, 2004 and ending on June 1, 2014. The balance of this note at June 30, 2008 is \$76,665.

18. INTERFUND TRANSFERS

Interfund transfers for fiscal year ended June 30, 2008 are as follows:

	<u>Transfers In</u>	<u>Transfers Out</u>
Governmental activities:		
Major funds:		
General Fund	\$ 2,195,395	\$21,979,800
School District	14,297,099	44,000
Library Building	96,500	
Non-major funds	<u>5,634,538</u>	<u>2,351,960</u>
Total governmental activities	<u>\$22,223,532</u>	<u>\$24,375,760</u>
Business-type activities:		
Major funds:		
Sewer Authority	\$2,108,228	
Non-major funds	<u>44,000</u>	
Total business-type activities	<u>\$2,152,228</u>	<u>\$ 0</u>

19. OPERATING LEASE

On July 6, 2004, the Town entered into a lease agreement for the purpose of renting additional office space located at 35 East Avenue, Harrisville, Rhode Island. The original lease required 24 monthly payments beginning August 1, 2004 through July 31, 2006. On July 28, 2005, the lease was extended and modified. The initial rental period under the revised lease shall be for a term of two years. The lease began on August 1, 2005. The first 12 payments are \$2,066.66, and the next 12 payments are \$2,233.33. The Town extended the lease for a one-year period commencing on August 1, 2007. Lease expense for the year ended June 30, 2008 totaled \$24,567.

20. LANDFILL POSTCLOSURE CARE COSTS

The Town accounts for its postclosure care costs under GASB Statement No. 18. This Statement is based on the October 9, 1991, U.S. Environmental Protection Agency (EPA) rule, "Solid Waste Disposal Facility Criteria," which establishes closure requirements for all municipal solid waste landfills (MSWLF's) that receive solid waste after October 9, 1991. The EPA rule also establishes thirty-year postclosure care requirements for MSWLF's that accept solid waste after October 9, 1993. The effect of the EPA rule and similar state laws or regulations is to obligate MSWLF owners and operators to perform certain closing functions and postclosure monitoring and maintenance functions as a condition for the right to operate the MSWLF in the current period.

(CONTINUED)

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2008

20. LANDFILL POSTCLOSURE CARE COSTS (Continued)

The Town utilizes the General Fund to account for closure and postclosure care costs of its two closed landfills (Clear River Road and Whipple Avenue). The Clear River Road landfill was closed in 1991 and has thirteen remaining years of postclosure monitoring costs.

The Whipple Avenue landfill was closed in 1976. During fiscal year 2008, the Town, in accordance with state and federal regulations, entered into a voluntary compliance program which requires the Town to place a final cover on the landfill and to perform certain maintenance and monitoring functions at the landfill site for 30 years after closure. The capping of the landfill should be completed in fiscal year 2012. The estimated cost of closure as determined by an independent consultant is approximately \$3,000,000. In addition, estimated postclosure monitoring costs are estimated at \$30,000 per year. These estimates are subject to change resulting from inflation, deflation, technology, or changes in applicable laws or regulations. The \$3,000,000 estimated cost of capping the Whipple Avenue landfill will be funded by General Fund contributions or bond proceeds.

The Town has both landfill closure and post closure care costs as follows:

<u>Town Landfill</u>	<u>Year of Closure</u>	<u>Remaining Capping Cost (Estimate)</u>	<u>Monitoring Costs (Estimate)</u>	<u>Years Remaining</u>	<u>Projected Liability</u>	<u>Short-Term Liability</u>	<u>Long-Term Liability</u>
Clear River Road	1991	N/A	\$30,000	13	\$ 390,000	\$30,000	\$ 360,000
Whipple Avenue	1976	<u>\$3,000,000</u>	<u>30,000</u>	30	<u>3,900,000</u>	<u>0</u>	<u>3,900,000</u>
		<u>\$3,000,000</u>	<u>\$60,000</u>		<u>\$4,290,000</u>	<u>\$30,000</u>	<u>\$4,260,000</u>

21. SUBSEQUENT EVENT

The Town exercised its option on November 13, 2008 to purchase certain land for recreation and trail development at a total cost of \$200,000. Terms of the Option required the Town to pay one-half of the purchase price \$(100,000) by December 31, 2008. The balance of the purchase price is due during fiscal year 2010.

BUDGETARY TO GAAP BASIS RECONCILIATION

As more fully described in Note 2, the following reconciliation summarizes the differences for the Town's General Fund between budgetary and GAAP basis accounting principles for the year ended June 30, 2008:

Excess of revenues and other sources over expenditures and other uses (Non-GAAP Budgetary Basis)	\$ 2,071,501
Fund balance reappropriated	<u>(4,050,517)</u>
Excess of revenues and other sources over expenditures and other uses (GAAP)	<u>\$(1,979,016)</u>

The following reconciliation summarizes the differences for the School District's General Fund between budgetary and GAAP basis accounting principles for the year ended June 30, 2008:

Deficiency of revenues and other sources over expenditures and other uses (Non-GAAP Budgetary Basis)	\$335,580
Current year encumbrances	53,613
Prior year encumbrances	<u>(135,875)</u>
Excess of revenues and other sources over expenditures and other uses (GAAP)	<u>\$253,318</u>

(THIS PAGE LEFT BLANK INTENTIONALLY.)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. The following funds are reported in this section:

School Restricted Grants

The Restricted set of accounts is used to reflect designated funds which are limited by law for specific purposes or programs.

Other School Activities

This fund accounts for monies utilized for activities associated with vocational education, adult education, and the summer school program.

Community Recreation

This fund accounts for both the Community Recreation Center Fund and the Recreation Capital Fund. The Community Recreation Center Fund accounts for the operation and maintenance of the Community Recreation Center (the Lodge). Funding is provided from rental fees, interest earnings, and the General Fund. The Recreation Capital Fund was created pursuant to the 1980 Public Law Chapter 13, which allows for the Town to require a payment in lieu of land for public recreation.

Town Clerk – Technology

This fund accounts for monies (10% of recording fees) utilized for the purpose of document preservation and technological upgrades [RIGL 34-13-7].

Historical Records

This fund accounts for document filing fees collected by the Town which are to be used for the preservation of historical Town records.

Animal Shelter Donation Account

This fund accounts for donations received and expenses incurred in the performance of various animal control duties.

(CONTINUED)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Library Grant

This fund accounts for grant activity related to the Jesse M. Smith Memorial Library and the Pascoag Library.

Violence Against Women

This fund accounts for grant activity related to in-service police training for Burrillville Police Officers.

Byrne Grant

This fund accounts for grant activity related to equipment purchased for the Police Department.

Spring Lake

This fund accounts for the operation and maintenance of Spring Lake Beach. Funding is provided from fees and the General Fund.

Community Development Block Grants

This fund accounts for funds obtained through the Community Development Block Grant Program and the U.S. Department of Housing and Urban Development, which are restricted for specific purposes of programs. This fund also accounts for the CDBG Revolving Loan Program which provides loans to qualified homeowners for various home improvements.

Burrillville Tree Inventory

This fund accounts for local activity involved with the identification and inventory of significant old growth trees for the purpose of preservation.

Unfunded Liability and Incentive Pay Fund

This fund has been created to pay for the sick leave buyout, accrued sick and vacation leave, sick leave incentive program, and department/division head (non-union) performance incentive pay.

(CONTINUED)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Recycling Program

This fund account for monies set aside for the purpose of promoting town-wide recycling.

Ocean State Power Funds

This fund accounts for monies received from Ocean State Power. Per an agreement with the Town, Ocean State Power is to contribute every year for twenty years to the Ocean State Power Scholarship Fund and Ocean State Power Community Foundation. Both funds are headed by a committee which approves the spending of these funds.

Narcotics Guidance Council

This fund accounts for the various activities conducted by the Burrillville Narcotic Guidance Council. Funding is provided by the General Fund and other grant programs.

Police Grant – Operation Riptide

This fund accounts for grant monies utilized for the purpose of enforcing the driving under the influence laws.

Police Task Force

This fund accounts for monies received from forfeiture and drug related activities.

Police Legislative Grant

This fund accounts for grant monies received through the State to be used by the Town in its law enforcement activities.

Homeland Security

This fund accounts for grant monies utilized for the purpose of acquiring equipment to assist the Town in determining, preventing, responding, and recovering from a WMD (weapons of mass destruction) terrorism incident.

Health Care Contingency

This fund was created for the purpose of paying health-related insurance deductions.

(CONTINUED)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Police Incentive Pay

This fund accounts for State monies received which provide for educational incentives to police officers based upon certain degrees obtained.

Cops That Care

This fund accounts for grant monies received for various community activities designed to promote positive relationships with the local police department.

Bicentennial Committee

This fund accounts for activities associated with the celebration of the Town's 200th Anniversary to be celebrated in fiscal year 2007.

Senior Center

This fund accounts for monies that are received for the feasibility of constructing a senior center.

Debt Reduction

This fund accounts for monies specifically appropriated for the advance payment of outstanding debt and/or to minimize the occurrence of new debt.

(CONTINUED)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECT FUNDS

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds. Funding sources include debt proceeds, intergovernmental sources, third party contributions and General Fund operating transfers. The following funds are reported in this section:

Municipal Annex Renovation

This fund accounts for renovations to the Carlton M. Brown Memorial Building.

Rail Trail Harrisville/Pascoag

This fund accounts for the purchase and construction of a pedestrian trail between the villages of Harrisville and Pascoag.

Open Space/Land Acquisition

This fund accounts for Town appropriations specifically set aside for the purpose of acquiring land for open space and other purposes.

Callahan Renovation Project

This fund accounts for the expansion and renovation of the Callahan Elementary School.

Major Capital

This fund accounts for Town appropriations set aside for the purpose of funding major capital acquisitions.

Route 102

This fund accounts for monies set aside for the purpose of planning and developing Route 102.

(CONTINUED)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

CAPITAL PROJECT FUNDS

Branch River/Hauser Field

This fund accounts for the expansion and renovation of the Branch River and Hauser Recreation Facilities.

Levy Rink Renovations

This fund accounts for the expansion and renovation of the June Rockwell Levy Rink.

Route 107

This fund accounts for monies set aside for the purpose of planning and developing Route 107 (portions of East Avenue/Harrisville Main Street/Chapel Street).

Pascoag Main St. Revitalization

This fund accounts for monies utilized for the purpose of various activities (such as store front improvements, parking, etc.) associated with the revitalization of Pascoag Main Street.

School Administration Building

This fund accounts for the construction of a new school administration building located at the middle school.

High School Football Field

This fund accounts for monies utilized for the purpose of constructing a football field at the high school.

Computer Acquisition

This fund accounts for the acquisition and installation of a Town wide computer system.

(CONTINUED)

TOWN OF BURRILLVILLE

NON-MAJOR GOVERNMENTAL FUNDS

PERMANENT FUNDS

Cemetery Fund

The cemetery fund accounts for monies received by individuals to be used for the perpetual care of Town cemeteries and are under the custody of the Town Clerk.

Frank H. Potter Bridgeway Fund

The Frank H. Potter Bridgeway Fund accounts for monies received under the will of the late Austin T. Levy. Interest received is to be used for the maintenance of the Frank H. Potter Bridgeway.

Alice McGreevy Thompson Fund

This fund accounts for money gifted to the Town from Mrs. Alice McGreevy Thompson for the purpose of establishing a perpetual fund to be held in trust by the Town. Interest earned is to be paid annually to a high school senior with the highest average in chemistry.

Jesse M. Smith Memorial Library Fund

This fund accounts for two contributions received under the will of the late Austin T. Levy. Interest received is to be used for the purpose of acquiring library books and general operations of the Jesse M. Smith Memorial Library.

TOWN OF BURRILLVILLE, RHODE ISLAND

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2008

1. GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of the Town of Burrillville. All federal awards received from federal agencies are included on the Schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audit of States, Local Governments, and Non-Profit Organizations*. Therefore, some of the amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting.

3. DETERMINATION OF MAJOR PROGRAMS

The determination of major federal financial assistance programs was based upon the overall level of expenditures for all federal programs for the Town of Burrillville. As such, the threshold for determining Type A and Type B programs is defined as those with program expenditures greater than \$300,000 or 3 percent of total expenditures when the total expenditures are over \$10,000,000. There were two programs with expenditures exceeding \$300,000 for the fiscal year ended June 30, 2008. For the fiscal year ended June 30, 2008, the following programs were considered major programs:

Child Nutrition Cluster	#10.550, #10.553 and #10.555
Special Education Cluster	#84.027 and #84.173

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Town Council,
Burrillville, Rhode Island

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Town of Burrillville, Rhode Island as of and for the year ended June 30, 2008, which collectively comprise the Town of Burrillville, Rhode Island's basic financial statements and have issued our report thereon dated December 22, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Burrillville, Rhode Island's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Burrillville, Rhode Island's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town of Burrillville, Rhode Island's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

Internal Control Over Financial Reporting (Continued)

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Town of Burrillville, Rhode Island's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Town of Burrillville, Rhode Island's financial statements that is more than inconsequential will not be prevented or detected by the Town of Burrillville, Rhode Island's internal control. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting (2008-1 and 2008-2).

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Town of Burrillville, Rhode Island's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we consider items 2008-1 and 2008-2 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Burrillville, Rhode Island's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the Town of Burrillville, Rhode Island in a separate letter dated December 22, 2008.

The Town of Burrillville's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the Town of Burrillville's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Town Council, management, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

December 22, 2008

CAYER CACCIA LLP

Certified Public Accountants and Business Consultants

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable Town Council
Burrillville, Rhode Island

Compliance

We have audited the compliance of the Town of Burrillville, Rhode Island, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The Town of Burrillville, Rhode Island's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Town of Burrillville, Rhode Island's management. Our responsibility is to express an opinion on the Town of Burrillville, Rhode Island's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Town of Burrillville, Rhode Island's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Town of Burrillville, Rhode Island's compliance with those requirements.

In our opinion, the Town of Burrillville, Rhode Island complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 2008-3.

405 Promenade Street, Providence, RI 02908 (401) 421-7700 FAX (401) 421-5252
100 Plaza Center 68 Cumberland Street, Woonsocket, RI 02895 (401) 766-8100

Internal Control Over Compliance

The management of the Town of Burrillville, Rhode Island is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Town of Burrillville, Rhode Island's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Town of Burrillville, Rhode Island's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The Town of Burrillville's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Town of Burrillville's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Town Council, management, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Cayer Caccia, LLP

December 22, 2008

TOWN OF BURRILLVILLE, RHODE ISLAND

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2008**

A. SUMMARY OF AUDITOR'S RESULTS

1. The auditor's report expresses an unqualified opinion on the financial statements of the Town of Burrillville.
2. Internal control over financial reporting:

Two significant deficiencies disclosed during the audit of the financial statements are summarized below in findings 2008-1 and 2008-2. Both of the conditions are reported as material weaknesses.
3. No instances of noncompliance material to the financial statements of the Town of Burrillville, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. No significant deficiencies relating to the audit of the major federal award programs are reported.
5. The auditor's report on compliance for the major federal award programs for the Town of Burrillville expresses an unqualified opinion on all major federal programs.
6. Audit findings that are required to be reported in accordance with section 510(a) of OMB Circular A-133 are reported in this Schedule.
7. The programs tested as major programs include:

Child Nutrition Cluster	#10.550, #10.553 and #10.555
Special Education Cluster	#84.027 and #84.173
8. The threshold used for distinguishing Type A and B programs is described in Note 3 to the Schedule of Expenditures of Federal Awards.
9. The Town did not qualify as a low risk auditee.

B. FINDINGS RELATED TO AUDIT OF FINANCIAL STATEMENTS

2008-1 Oversight of the Town's Financial Reporting Process

The Town Council and management are responsible for the effective oversight of the financial reporting process, including the preparation of Town financial statements and related footnote disclosures. During fiscal year 2008, the Town relied upon the external auditor to prepare its financial statements and related footnote disclosures to ensure that they were prepared in accordance with generally accepted accounting principles. Therefore, adequate controls were not in place as of June 30, 2008 to prevent and detect misstatements in the financial statement preparation and reporting process.

Recommendation – We recommend that the Town continue to strengthen its internal controls to decrease the risk of misstatements over the financial reporting process. Management can improve controls related to the financial reporting process by dedicating resources to improve the oversight of the financial reporting process.

Corrective Action Plan – We acknowledge that we relied on the external auditors to assist in the recording of certain complex transactions and the final preparation of the GAAP financial statements. Since this does not present an independence issue and is more cost effective, we will continue to rely on external auditors to prepare the financial statements.

TOWN OF BURRILLVILLE, RHODE ISLAND

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2008**

B. FINDINGS RELATED TO AUDIT OF FINANCIAL STATEMENTS (Continued)

2008-2 Accurate Posting of Side Fund Financial Activity

Required monthly interfund reconciliations and general ledger maintenance procedures related to the Town's larger and more complex side funds (special revenue and capital project funds) are not being performed on a timely basis. As a result, we noted posting errors which required correcting entries to be made. In addition, we provided management with numerous adjusting entries which were required to record and reclassify financial activity in the MUNIS general ledger.

Recommendation – We recommend that the Finance Department establish and implement effective review and reconciliation procedures for the Town's significant side funds.

Corrective Action Plan – Posting of financial data and interfund reconciliations will be performed on a monthly basis.

C. FINDINGS AND QUESTIONED COSTS - RELATING TO FEDERAL AWARDS

U.S. Department of Education

IDEA – Special Education Cluster – CFDA No. 84.027 and No. 84.173

2008 – 3 Condition and Criteria: Interim financial status reports are due 15 days after each calendar quarter end. We noted that two of the interim financial status reports were not timely filed.

Effect: The reports were not submitted within the time period required by the Rhode Island Department of Elementary and Secondary Education.

Cause: The late filing was an unintentional oversight.

Population and Items Tested: All nine Financial Status Reports and Cash Reimbursement Forms filed for these grants during fiscal year 2008.

Auditor's Recommendation: Procedures should be established which require the timely filing of these reports.

Grantee's Response: The School Department agrees with the finding. The finding relates only to the first quarter reports. The reason for the delay for the late filing of the reports was primarily due to the late notification of the grant award by the Rhode Island Department of Elementary and Secondary Education. Every effort will be made in the future to rectify this situation.

TOWN OF BURRILLVILLE, RHODE ISLAND

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2008**

D. SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Department of Agriculture

Finding 2007- 3 Child Nutrition Cluster

Condition: This finding was a significant deficiency stating that there was a lack of segregation of duties related to the School Lunch Program. In addition, we noted that the monthly bank reconciliations disclosed several deposits in transit that were significantly delayed in clearing the bank. We also noted that three deposits in transit totaling \$2,441 were subsequently written off in the general ledger.

Recommendation: It was recommended that the financial duties of the School Lunch Program, including the monthly bank reconciliation process, be assumed by the School Business Office.

Current Status: The recommendation was adopted during fiscal year 2008. No similar findings were noted in the fiscal year 2008 audit.
