

# Ms. Cairo's First Grade Class:

## Earth Night

Ms. Cairo's class hosted an Earth Night where families were invited to come and view various exhibits on the importance of recycling and protecting the earth. There were several projects made from recycled materials, posters, terrariums, and photos of their trip to RIRRC. Great job Ms. Cairo! Thank you students for all of your efforts to save our earth!

**Mount Trasharam** (cousin to Mount Trashmore). Students collected “clean trash” for 2 weeks to raise awareness of exactly how much we throw out. Look how many of these items could be recycled!

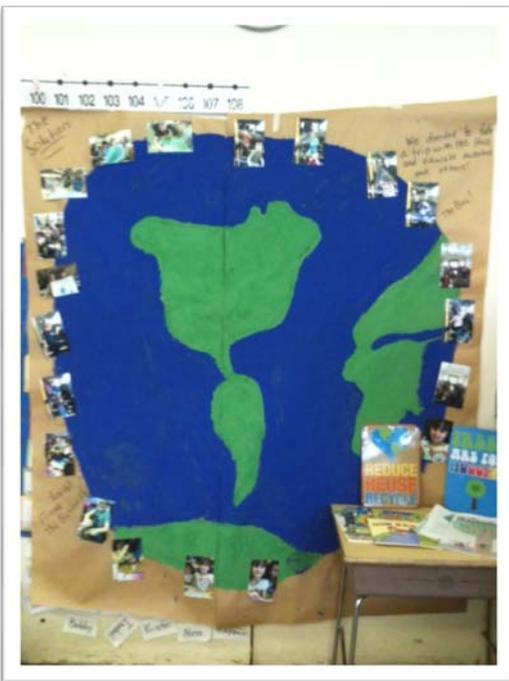

Litter Bugs

The Great Pacific Garbage Patch

Recap of the fieldtrip to RIRRC

Ms. Cairo's class helps the earth

Mobiles from recycled materials

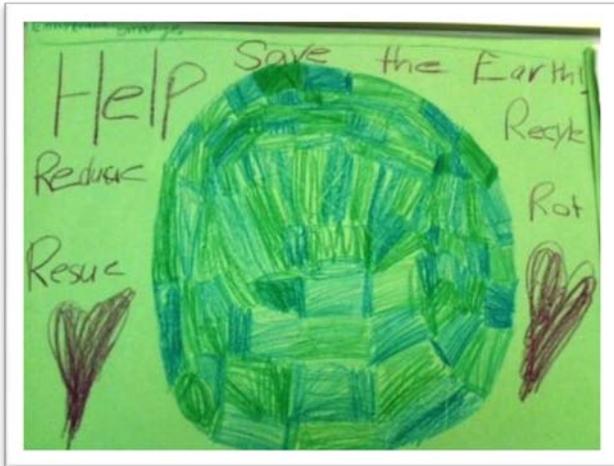

Whose Hands Are Helping Our Earth?

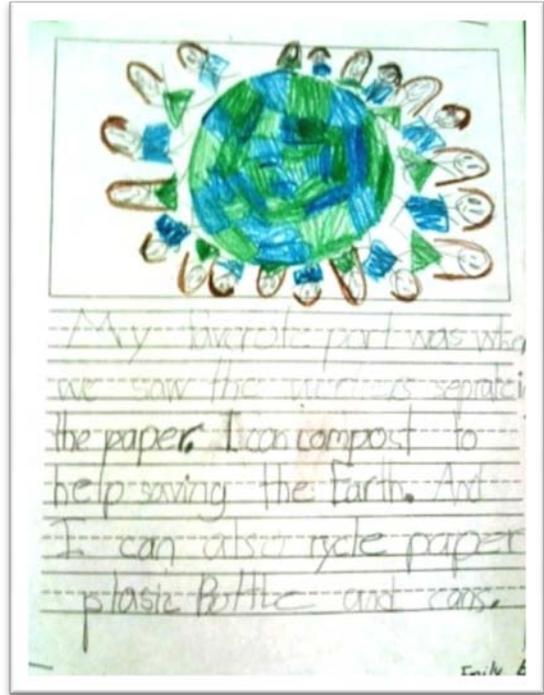

Terrariums made from recycled water bottles

Triptychs made from recycled magazine pages.

What Goes In The Blue & Green Bins?

Totes from recycled tape

## Certificate of Achievement

This certificate has been awarded to

Isabel Costa

for successful completion of the *Tour of the Rhode Island Resource Recovery Corporation*. You are now ready to teach everyone at home how to **REDUCE, REUSE, and RECYCLE!**

Visit the Project: Recycle! page of the town website to see pictures of school recycling projects and to learn more about recycling.
