

Mr. Tucker's First Grade Class:

Trash Pizza

Mr. Tucker's class recently participated in a recycling lesson where we worked together to create a "trash pizza". The pizza slices illustrate the different components of trash and raise awareness of large amount of recyclables that are thrown out as trash every day. The students did a wonderful job and helped me create a pizza that I can use as a teaching tool in other classrooms.

Ingredients:

Paper – 28.2%

Food Scraps – 14.1%

Yard Waste – 13.7%

Plastics – 12.3%

Metals – 8.6%

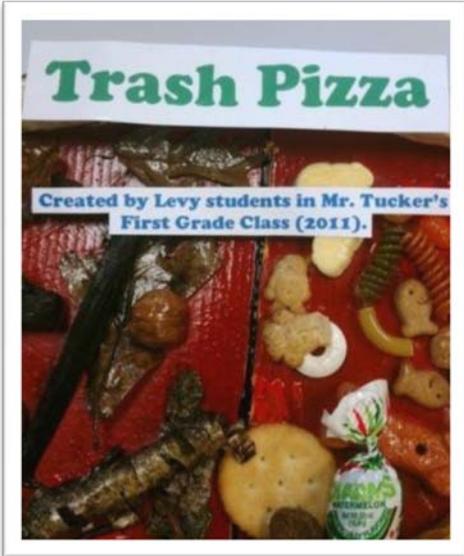

Rubber, Leather, Textiles-
8.3%

Wood – 6.5%

Glass – 4.8%

Other- 3.5%

Look how much of this pizza could be
recycled!

Student Artwork

Cards from the students: Check out the great recycling pictures! You can tell these guys are on their way to being second graders!!
