Re: FERC Open House Notification, PF16-1-000
Algonquin Gas Transmission, LLC - Proposed Access Northeast Project

Dear (Landowner Name):

We have previously written to inform you that Algonquin Gas Transmission, LLC (“Algonquin”)¹ has proposed to upgrade and expand portions of its existing natural gas pipeline system in New York, Connecticut, Rhode Island and Massachusetts, and to construct and operate a liquefied natural gas storage facility in Acushnet, Massachusetts in order to deliver, on peak days, up to 925,000 dekatherms per day of natural gas as part of the Access Northeast Project (the “Project”). This Project is currently being evaluated by the Federal Energy Regulatory Commission (“FERC”) Pre-Filing Process in docket PF16-1-000. In order to consider the potential effects of the proposed Project facilities on landowners and to the environment, Algonquin has scheduled Open House Meetings for the purpose of receiving additional comments about the Project. FERC representatives will attend these meetings.

Attached is the schedule of the Open House Meetings that lists the time and location of the Open House Meeting scheduled near you. We encourage you to attend the Open House Meeting in your area to share your questions and concerns about the Project. Please note that there is no formal speaking program at these meetings, so you can arrive anytime within the timeframe listed on the attached schedule.

Should you have any questions concerning the Access Northeast Project, please do not hesitate to contact us toll free at (888) 331-6553. In addition, Algonquin has a dedicated Project website located at www.accessnortheastenergy.com where Project-related information can be reviewed or downloaded.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Franklin S. Gessner".

Franklin S. Gessner
Principal Right-of-Way Project Manager

¹ Algonquin is a wholly-owned subsidiary of Spectra Energy Partners, LP and maintains and operates interstate natural gas transmission pipelines under the exclusive jurisdiction of the Federal Energy Regulatory Commission pursuant to the Natural Gas Act (15 U.S.C. §§ 717-717w). Algonquin’s principal place of business is 5400 Westheimer Court, Houston, Texas 77056.
